3. **Method of paying tax.**—The tax shall be paid to the Taxing Officer of the area in which the vehicle is kept—

Bengal Form No. 3581.

High Court Civil Miscellaneous Form No. (M.) 128.

High Court Criminal Miscellaneous Form No. (M.) 21.

10. **Grant of token.**—When the Taxing Officer is satisfied that the tax has been paid for a period not yet expired and that the registration of a motor vehicle for which it is paid is valid, he shall deliver to the person who has paid the tax a token in Form D (Bengal Form 330E).

11. When a token is issued for a vehicle of which the registration is still pending with the Commissioner, the Taxing Officer shall leave the item relating to the registered number blank. On receipt of the certificate of registration, the owner of the vehicle shall produce the token together with the certificate of registration before the Taxing Officer who shall thereupon enter the registered number of the vehicle on the token and in his registers.

12. **Token to be exhibited.**—The token shall be attached to and carried on the vehicle or trailer in the manner provided in rule 13 at all times when the vehicle or trailer is in use.

13. **Manner of exhibiting token.**—The token shall be carried in a holder made of metal and of weather-proof construction. The holder shall be circular and conform to the following specifications:—

Token tray.—The token tray shall be of sheet metal of a size to fit the token neatly and of a suitable thickness. It shall have a turned up edge of sufficient depth to hold the token and shall be provided with a stout cover of transparent white glass, or shall be so designed as to fit against the wind-screen, which must then be of transparent white glass, in such a manner that the glass of the screen serves as a cover.

Ring cover.—Unless the token tray fits against the wind-screen glass in the above manner, there shall be a circular ring of sheet metal shaped to fit down closely on the tray and adapted for fixing by screws, bolts or otherwise to the vehicle in the prescribed position. A rubber packing ring shall be arranged to fit between the ring cover and cover glass and tray, or between the glass of the wind-screen and the tray, so as to render the whole carrier weather-proof.

Dimensions.—The aperture within the ring cover shall clearly exhibit the whole of the token and shall have a diameter of approximately 2⅝ths inches.

The token shall be fitted on the vehicle in such a position that it shall be clearly visible in daylight to a person standing beside the vehicle in front of, or level with, the driver's seat.

Note.—As it has been found that tokens often fade and become illegible if regularly exposed to direct sunlight, owners are recommended to have them fitted inside the vehicle on the instrument board. Their particular attention is called to the provisions of rule 15 which make it illegal to use an illegible token.

14. **Defacing token.**—No person shall alter, deface, mutilate or add anything to the token or exhibit a token on a vehicle other than the vehicle mentioned in the token.

15. **Use of imitation and illegible tokens forbidden.**—No person shall exhibit in the manner provided in rule 13 any imitation of a token or use on a vehicle any token which has become illegible.

16. **Responsibility of owner for token.**—If the token is lost, destroyed, defaced or altered or has become illegible, the owner shall immediately report the facts to the Taxing Officer who issued the token.

17. **Duplicate token.**—If the Taxing Officer is satisfied that the original token issued by him has been lost, destroyed, defaced or altered or has become illegible, he shall on payment by the owner of a fee of Rs. 5 issue a duplicate token and shall grant a receipt in Form C (Bengal Form No. 39) unless payment has been made as provided in clause (*a*) of sub-rule (*2*) of rule 9.

18. If an original token that has been reported lost is found after the duplicate has been issued, the owner of the vehicle shall take all reasonable steps to regain the original and surrender it to the Taxing Officer. No refund shall be made of the fee paid under rule 17.

19. Every token shall be returned to the Taxing Officer either on its expiry or at the time of payment of the tax for the subsequent year or quarter, when it shall be attached to the declaration in Form A (Bengal Form No. 330C) relating thereto. It shall be defaced by him and filed in his office with the declaration, if any.

20. **Tokens for vehicles exempt from tax.**—Owners or officers in charge of motor vehicles who claim exemption from tax under the provisions of rule 30 shall fill in a declaration form in Form A (Bengal Form No. 330C) and forward it to the Taxing Officer together with satisfactory proof that they are entitled to exemption.

On receipt of such proof the Taxing Officer shall issue, for not more than a year, a tax-free token on which shall be entered under the heading "class" the word "free."

20A. **Token books.**—(*1*) On receipt of books of tokens from the Jail Department the Taxing Officer himself or a gazetted officer under his orders will count the tokens contained in each book and will give a certificate on the cover of the book as to the number of tokens found to be contained in it.

(*2*) The books of tokens shall be kept under lock and key, and no more be issued than are actually required for immediate use.

21. **Quarterly periods.**—The quarterly periods referred to in section 4 of the Act shall be the four periods beginning on the—

23. **Mode of recovery of arrear tax by the court.**—(*1*) In prosecuting any person under the provisions of section 13 or section 14 of the Act, the Taxing Officer shall forward with his report to the Magistrate a statement in Form I (Bengal Form No. 330I).

(2) If the trying Magistrate convicts the accused he shall, at the time of passing orders, assess the tax due, direct the payment of it by the accused, and enter the amount in Form I (Bengal Form No. 3301) under the heading "order of the trying Magistrate."

(3) If the tax so assessed is paid in court the trying Magistrate shall issue a separate receipt for it in the following form, note the payment in Form I under the appropriate heading, attesting it by his seal, and make the form over to the accused with instructions to present it to the Taxing Officer. The Taxing Officer shall then issue a token if the payment covers a period that has not yet expired.

Bengal Form No. 3581.

High Court Civil Miscellaneous Form No. (M.) 128.

High Court Criminal Miscellaneous Form No. (M.) 21.

(4) If the tax is not paid in court, the Magistrate shall take all possible steps to realise it. When it is realised he shall proceed as directed in sub-rule (3).

(5) The tax realised shall be credited to "XXVI—Miscellaneous Departments."

24. **Suspension of registration.**—If a Taxing Officer declares the certificate of registration of a motor vehicle to be suspended under the provisions of section 13A of the Act, he shall inform the owner that the registration of his motor vehicle has been suspended and that the use of the vehicle is prohibited until the suspension is removed.

On receipt of the tax and any penalty due, the Taxing Officer shall declare that the suspension of registration is removed.

A copy of all orders regarding such suspension of registration and release from suspension shall be forwarded by the Taxing Officer to the Commissioner and District Magistrate concerned for entry in the registration register.

26. Such unladen weight shall be determined in such manner as the Local Government may direct.

27. Whenever an owner pays a tax in respect of a trailer under clause (*h*) of Part IV of the First Schedule to the Act, the Taxing Officer shall issue a token on which under the heading "vehicle" the word "trailer" shall be entered. Such token shall be exhibited on the trailer when it is in use.

No. 25585-G.—The following rules framed by the High Court of Judicature at Fort William in Bengal in the exercise of the powers vested in it by section 122 of the Code of Civil Procedure with the sanction of the Governor General in Council under section 126 of the Code are published for general information.

The rules will come into force from the 1st January 1934:—

Rules.

I. Order 21, Rule 43, shall read as follows:—

Where the property to be attached is moveable property, other than agricultural produce, in the possession of the judgment-debtor, the attachment shall be made by actual seizure, and, save as otherwise prescribed, the attaching officer shall keep the property in his own custody or in the custody of one of his subordinates, and shall be responsible for the due custody thereof:

Provided that when the property seized does not, in the opinion of the attaching officer, exceed twenty rupees in value or is subject to speedy and natural decay, or when the expense of keeping it in custody is likely to exceed its value, the attaching officer may sell it at once.

II. *Add* the following as Rule 63A, Order 21:—

When an attachment of moveable property ceases the Court may order the restoration of the attached property to the person in whose possession it was before the attachment.

III. *Insert* the following as Order XXIA:—

1. Every person applying to a Civil Court to attach moveable property shall, in addition to the process-fee, deposit such reasonable sum as the Court may direct, if it think necessary, for the cost of its removal to the court-house, for its custody, and, if such property is livestock, for its maintenance according to the rates prescribed in Rule 2 of this Order. If the deposit, when ordered, be not made, the attachment shall not issue. The Court may, from time to time, order the deposit of such further fees as may be necessary. In default of due payment the property shall be released from attachment.

2. The following daily rates shall be chargeable for the custody and maintenance of livestock under attachment:—

Goat and pig—Annas 2 to annas 4.
Sheep—Annas 2 to annas 3.
Cow and bullock—Annas 6 to annas 10.
Calf—Annas 3 to annas 6.
Buffalo—Annas 8 to annas 12.
Horse—Annas 8 to annas 12.
Ass—Annas 3 to annas 5.
Poultry—Annas 2 to annas 3 pies 6.

Explanation.—Although the rates indicated above are regarded as reasonable, the Courts should consider individual circumstances and the local conditions and permit deposit at reduced rates where the actual expenses are likely to fall short of the minima or maxima. If any specimen of special value in any of the above classes is seized a special rate may be fixed by the Court. If any animal not specified is attached, the Court may fix the cost as a special case.

3. When the property attached consists of agricultural implements or other articles which cannot conveniently be removed and the attaching officer does not act under the proviso to Rule 43, Order 21, he may, unless the Court has otherwise directed, leave it in the village or place where it has been attached—

(*a*) in the charge of the judgment-debtor or decree-holder or of some other person, provided that the judgment-debtor, decree-holder or other person enters into a bond in Form No. 15A of Appendix E to this schedule with one or more sureties for the production of the property when called for, or,

(*b*) in the charge of an officer of the Court, if a suitable place for its safe custody be provided and the remuneration of the officer for a period of fifteen days paid in advance.

4. If attached property (other than livestock) is not sold under the proviso to Rule 43, Order 21, or retained in the village or place where it is attached, it shall be brought to the court-house at the decree-holder's expense and delivered to the proper officer of the Court. In the event of the decree-holder failing to make his own arrangement for the removal of the property with safety, or paying the cost thereof in advance to the attaching officer, then, unless such payment has previously been made into Court, the attachment shall at once be deemed to be withdrawn and the property shall be made over to the person in whose possession it was before attachment.

5. When livestock is attached it shall not, without the special order of the Court, be brought to the Court or its compound or vicinity, but shall be left at the village or place where it was attached in the manner and on the conditions set forth in Rule 3 of this Order:

Provided that livestock shall not be left in the charge of any person under clause (*a*) of the said rule unless he enters into a bond for the proper care and maintenance thereof as well as for its production when called for, and that it shall not be left in charge of an officer of the Court under clause (*b*) of the said rule unless in addition to the requirements of the said clause provision be made for its care and maintenance.

6. When for any reason the attaching officer shall find it impossible to obtain compliance with the requirements of the preceding rule so as to entitle him to leave the attached livestock in the village or place where it was attached and no order has been made by the Court for its removal to the Court, the attaching officer shall not proceed with the attachment and no attachment shall be deemed to have been effected.

7. Whenever it shall appear to the Court that livestock under attachment are not being properly tended or maintained, the Court shall make such orders as are necessary for their care and maintenance and may if necessary direct the attachment to cease and the livestock to be returned to the person in whose possession they were when attached. The Court may order the decree-holder to pay any expenses so incurred in providing for the care and maintenance of the livestock, and may direct that any sum so paid shall be refunded to the decree-holder by any other party to the proceedings.

8. If under a special order of the Court livestock is to be conveyed to the Court, the decree-holder shall make his own arrangement for such removal, and if he fails to do so the attachment shall be withdrawn and the property made over to the person in whose possession it was before attachment.

9. Nothing in these rules shall prevent the judgment-debtor or any person claiming to be interested in attached livestock from making such arrangements for feeding, watering and tending the same as may not be inconsistent with its safe custody, or contrary to any order of the Court.

10. The Court may direct that any sums which have been legitimately expended by the attaching officer or are payable to him, if not duly deposited or paid, be recovered from the sale-proceeds of the attached property, if sold, or be paid by the person declared entitled to delivery before he receives the same. The Court may also order that any sums deposited or paid under these rules be recovered as costs of the attachment from any party to the proceedings.

11. In the event of the custodian of attached property failing, after due notice, to produce such property at the place named to the officer deputed for the purpose, or to restore it to its owner if so ordered or failing in the case of livestock to maintain and take proper care thereof, he shall be liable to be proceeded against for the enforcement of his bond in the execution proceedings.

12. When property other than livestock is brought to the Court, it shall immediately be made over to the Nazir, who shall keep it on his sole responsibility in such place as may be approved by the Court. If the property cannot from its nature or bulk be conveniently stored, or kept on the Court premises or in the personal custody of the Nazir, he may, subject to the approval of the Court, make such arrangements for its safe custody under his own supervision as may be most convenient and economical. If any premises are to be hired and persons are to be engaged for watching the property the Court shall fix the charges for the premises and the remuneration to be allowed to the persons (not being officers of the Court) in whose custody the property is kept. All such costs shall be paid into Court by the decree-holder in advance for such period as the Court may from time to time direct.

13. When attached livestock is brought to Court under special order as aforesaid it shall be immediately made over to the Nazir, who shall be responsible for its due preservation and safe custody until he delivers it up under the orders of the Court.

14. If there be a pound maintained by Government or local authority in or near the place where the Court is held, the Nazir shall, subject to the approval of the Court, be at liberty to place in it such livestock as can be properly kept there, in which case the pound keeper will be responsible for the property to the Nazir and shall receive from the Nazir the same rates for accommodation and maintenance thereof as are paid in respect of impounded cattle of the same description.

15. If there be no pound available, or, if in the opinion of the Court, it be inconvenient to lodge the attached livestock in the pound, the Nazir may keep them in his own premises, or he may entrust them to any person selected by himself and approved by the Court.

16. All costs for the keeping and maintenance of the livestock shall be paid into Court by the decree-holder in advance for not less than fifteen days at a time as often as the Court may from time to time direct. In the event of failure to pay the costs within the time fixed by the Court, the attachment shall be withdrawn and the livestock shall be at the disposal of the person in whose possession it was at the time of attachment.

17. So much of any sum deposited or paid into Court under these rules as may not be expended shall be refunded to the depositor.

IV. *Insert* the following after Form No. 15, Appendix E:—

If the master or owner of a pilgrim ship claims to carry on any voyage fewer lifeboats and approved buoyant apparatus than will provide sufficient accommodation for all the persons for which the ship is certified, he shall declare before the Principal Officer, Mercantile Marine Department, before the time of clearance, that the lifeboats and approved buoyant apparatus actually carried will be sufficient to accommodate all the persons who will be carried at any time during the voyage. If the aggregate capacity of the lifeboats which he claims to carry on the voyage is less than the minimum capacity specified in column D of the table in rule 37, the master or owner shall declare that the lifeboats alone will be sufficient to accommodate all the persons who will be carried at any time during the voyage.

10. **Lifebuoys.**—Every pilgrim ship shall carry lifebuoys of a type approved by the Governor-General in Council in accordance with the following scale:—

Length of ship in feet.	Minimum number of lifebuoys.
Under 200′ ..	6, of which not less than 2 shall be provided with self-igniting lights.
200′ and under 300′ ..	8, of which not less than 4 shall be provided with self-igniting lights.
300′ and under 400′ ..	10, of which not less than 6 shall be provided with self-igniting lights.
400′ and over ..	12, of which not less than 6 shall be provided with self-igniting lights.

11. **Lifebuoy lights.**—(1) Lifebuoy lights shall be self-igniting, shall be provided with a means of attachment to lifebuoys, and shall release and open automatically.

(2) Ships fitted with bridges shall carry a lifebuoy with a self-igniting light attached to it at each side of the navigating bridge in beckets or cleats in such a manner as to admit of instantaneous release and to ensure their dropping clear of the ship's side.

Other lifebuoy lights required under these rules shall be distributed, attached to lifebuoys, to the Surveyor's satisfaction.

(3) All lifebuoy lights required under these rules shall be capable of burning in water for at least 40 minutes. Lights fitted with prickers for opening shall not be accepted.

12. **Life-jackets.**—One approved life-jacket shall be carried for each person on board.

13. **Powers to accept alternatives.**—The Governor-General in Council may, in general or in any particular case, accept any life-saving appliance or arrangement in lieu of a life-saving appliance or arrangement required by these rules subject to such conditions as he may impose.

14. **Classification of lifeboats.**—For the purposes of these rules lifeboats are arranged in the following classes:—

CLASS 1.

A.—Open lifeboats with internal buoyancy only.

The buoyancy of a wooden boat of this type shall be provided by watertight air-cases, the total volume of which shall be at least equal to one-tenth of the cubic capacity of the boat.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

B.—Open lifeboats with internal and external buoyancy.

The interal buoyancy of a wooden boat of this type shall be provided by watertight air-cases, the total volume of which shall be at least equal to seven and a half per cent. of the cubic capacity of the boat.

If the external buoyancy is of cork, its volume, for a wooden boat, shall not be less than thirty-three thousands of the cubic capacity of the boat; if of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with external buoyancy of cork.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give buoyancy equal to that of the wooden boat.

C.—Pontoon lifeboats having a well deck and fixed watertight bulwarks.

The area of the well deck of a boat of this type shall be at least thirty per cent. of the total deck area. The height of the well deck above the water-line at all points shall be at least equal to one-half per cent. of the length of the boat, this height rising to one and a half per cent. of the length of the boat at the ends of the well.

The freeboard of a boat of this type shall be such as to provide for a reserve buoyancy of at least thirty-five per cent.

CLASS 2.

A.—Open lifeboats having the upper part of the side collapsible.

A boat of this type shall be fitted both with watertight air-cases and with external buoyancy, the volume of which, for each person which the boat is able to accommodate, shall be at least equal to the following amounts:—

	Cubic feet.
Air-cases	1·5
External buoyancy (if of cork) ..	0·2

The minimum freeboard of boats of this type is fixed in relation to their length; it shall be measured vertically to the top of the solid hull at the side amidships from the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts:—

Length of the boat in feet.	Minimum freeboard in inches.
26	8
28	9
30	10

The freeboard of boats of intermediate lengths shall be found by interpolation.

B.—Pontoon lifeboats having a well deck and collapsible bulwarks.

All the conditions laid down for boats of Class 1C shall be applied to boats of this type, which differ from those of Class 1C only in regard to the bulwarks.

C.—Pontoon lifeboats having a flush deck and collapsible bulwarks.

The minimum freeboard of boats of this type is independent of their length and depends only upon their depth. The depth of the boat shall be measured vertically from the underside of the garboard strake to the top of the deck at the side amidships and the freeboard shall be measured from the top of the deck at the side amidships to the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts, which are applicable without correction to boats having a mean sheer equal to three per cent. of their length:—

Depth of boat in inches.	Minimum freeboard in inches.
12	2¾
18	3¾
24	5⅛
30	6½

For intermediate depths the freeboard shall be obtained by interpolation.

If the sheer is less than the standard sheer defined above, the minimum freeboard shall be obtained by adding to the figures in the table one-seventh of the difference between the standard sheer and the actual mean sheer measured at the stem and stern post; no deduction shall be made from the freeboard on account of the sheer being greater than the standard sheer or on account of the camber of the deck.

The collapsible sides or bulwarks of Class II boats shall be watertight.

15. **Motor boats.**—(1) A motor boat carried as part of the statutory life-saving appliances of a pilgrim ship, shall comply with the following conditions:—

(*a*) It shall comply with the requirements for a lifeboat of Class 1, and proper appliances shall be provided for putting it into the water speedily.

(*b*) It shall be adequately provided with fuel and kept so as to be at all times ready for use.

(*c*) It shall be fitted with an approved wireless telegraphy apparatus and a searchlight.

(*d*) The motor and its accessories shall be suitably enclosed to ensure operation under adverse weather conditions and provision shall be made for going astern.

(*e*) The speed shall be at least 6 knots when fully loaded in smooth water.

(2) In fixing the volume of the internal buoyancy, and, where fitted, the external buoyancy, regard shall be had to the difference between the weight of the motor and wireless telegraphy installation and their accessories and the weight of the additional persons which the boat could accommodate if these were removed.

16. **Construction of lifeboats.**—(1) All boats shall be properly constructed, and shall be of such form and proportion that they shall have ample stability in a seaway, and sufficient freeboard when loaded with their full complement of persons and equipment. They shall be fitted and arranged to the satisfaction of the Governor General in Council.

(2) The structural strength of the boats shall be to the satisfaction of the Governor-General in Council. In the case of pilgrim ships, launched on or after the 1st June 1935, the strength shall be sufficient to permit of the boats being safely lowered into the water with the full complement of persons and equipment on board.

(3) **Seating accommodation.**—In all open boats, all thwart and side seats shall be fitted as low in the boat as practical, and shall provide seating accommodation for all persons the boat is deemed fit to carry and bottom boards shall be fitted so that the thwarts shall not be more than 2 feet 9 inches above them.

(4) **Buoyancy.**—Internal buoyancy apparatus shall be constructed of copper or yellow metal of not less than 18 ounces to the superficial foot, or of other durable material, and in open boats of Class 1 may be placed along the sides or at the ends of the boat, but not in the bottom of the boat. External buoyancy apparatus may be of cork or of any other equally efficient approved material: the use of rushes cork shavings, loose granulated cork, or any other loose granulated substance, and the use of apparatus dependent upon inflation by air as prohibited.

(5) **Sheer.**—Open lifeboats of Class 1 shall have a mean sheer at least equal to four per cent. of their length.

(6) **Pontoon lifeboat.**—Pontoon lifeboats may be built of wood or metal. If constructed of wood, they shall have the bottom and deck made of two thicknesses with textile material between; if of metal, they shall be divided into watertight compartments with means of access to each compartment and shall be provided with at least two bilge pumps.

(7) All pontoon lifeboats shall be fitted with efficient means for quickly clearing the deck of water. The orifices for this purpose shall be such that the water cannot enter the boat through them when they are intermittently submerged. The number and size of the orifices shall be determined by the Governor-General in Council for each type of boat by a special test.

For the purpose of this test:—

(*a*) The pontoon boat shall be loaded with a weight of iron equal to that of its complement of persons and equipment.

(*b*) In the case of a boat 28 feet in length, two tons of water shall be cleared from the boat in a time not exceeding the following:—

Class 1C	.. ..	60 seconds.
Class 2B	.. ..	60 seconds.
Class 2C	.. ..	20 seconds.

In the case of a boat having a length greater or less than 28 feet the weight of water to be cleared in the same time shall be for each type directly proportional to the length of the boat.

(8) No boat shall be accepted as a lifeboat the buoyancy of which depends upon the previous adjustment of one of the principal parts of the hull.

(9) All boats shall be fitted for the use of a steering oar.

(10) **Marking of lifeboats.**—All boats shall be permanently marked to the satisfaction of the Governor-General in Council in such a way as to indicate plainly their dimensions and the number of persons for which they are approved. Boats that have been properly marked need not be re-measured, unless there is reason to believe that the marks have been tampered with or are otherwise defective or improper.

(11) No boat may be approved the weight of which, when fully laden with persons and equipment, exceeds 20 tons and boats certified to carry 100 persons or more shall be motor boats.

17. **Number of persons.**—(1) The number of persons which a lifeboat shall be deemed fit to carry shall be equal to the greatest whole number obtained by dividing the capacity of the boat in cubic feet, or the surface of the boat in square feet, as the case may be (calculated as provided by rules 18 and 19), by the standard unit of capacity, or unit of surface, defined below.

(2) The cubic capacity in feet of a boat in which the number of persons is determined by the surface shall be assumed to be the ten times the number of persons which the boat is authorised to carry.

(3) The standard units of capacity and surface are as follows:—

Units of capacity.	Cubic feet.
Class 1A	10
Class 1B	9

Units of surface.	Square feet.
Class 2A	3½
Class 2C	
Class 1C	3¼
Class 2B	

(4) The Governor-General in Council may accept a smaller divisor for pontoon boats of Class 1C and Class 2B, if he is satisfied after trial that the number of persons for whom there is seating accommodation in the boat in question is greater than the number obtained by applying the above divisor provided always that the divisor adopted in place of 3¼ shall never be less than 3.

(5) The number of persons obtained by the above rules shall be reduced:—

(*i*) If it is greater than the number of persons for which there is proper seating accommodation, the latter number being determined in such a way that the persons when seated do not interfere in any way with the use of the oars, or

(*ii*) if, in the case of boats other than open boats of Class 1, the freeboard when the boat is fully loaded is less than the freeboard required by these rules.

(6) **Test afloat.**—If the Surveyor is doubtful as to the number of persons any boat is fit to carry he may require the boat to be tested afloat with the intended number of persons on board.

(7) The Surveyor may limit the number of persons to be allowed in boats with very fine ends and in boats very full in form.

(8) **Children.**—Two children under the age of twelve years may be carried in place of one adult person.

18. **Cubic capacity of open boats of Class 1.**—(1) In the case of an open boat of Class 1 the cubic capacity shall be determined by the following formula:—

$$\text{Capacity} = \frac{l}{12}(4A+2B+4C)$$

l denotes the *length* of the boat in feet from inside of the planking or plating at the stem to the corresponding point at the stern post; in the case of a boat with a square stern the length is measured to the inside of the transom.

A, B, C denote respectively the *areas of the cross-sections* at the quarter length forward amidships, and the quarter length aft, which correspond to the three points obtained by dividing l into four equal parts (the areas corresponding to the two ends of the boat are considered negligible).

The areas, A, B, C shall be deemed to be given in square feet by the successive application of the following formula to each of the three cross-sections:—

$$\text{Area} = \frac{h}{12}(a+4b+2c+4d+e)$$

h denotes the *depth* measured in feet inside the planking or plating from the keel to the level of the gunwale, or, in certain cases, to a lower level, as determined hereafter.

a, b, c, d, e denote the *horizontal breadths* of the boat measured in feet to the inside of the planking at the upper and lower points of the depth and at the three points obtained by dividing h into four equal parts (a and e being the breadths at the extreme points, and c at the middle point, of h).

(2) If the sheer of the gunwale, measured at the two points situated at a quarter of the length of the boat from the ends, exceeds 1 per cent. of the length of the boat, the depth employed in calculating the area of the cross-sections A or C shall be deemed to be the depth amidships *plus* 1 per cent. of the length of the boat.

(3) If the depth of the boat amidships exceeds 45 per cent. of the breadth, the depth employed in calculating the area of the midship cross-section *B* shall be deemed to be equal to 45 per cent. of the breadth, and the depth employed in calculating the areas of the quarter length sections *A* and *C* shall be obtained by increasing this last figure by an amount equal to 1 per cent. of the length of the boat, provided that in no case shall the depths employed in the calculation exceed the actual depths at these points.

(4) If the depth of the boat is greater than 4 feet, the number of persons given by the application of these rules shall be reduced in proportion to the ratio of 4 feet to the actual depth, until the boat has been tested afloat with that number of persons on board all wearing life-jackets, and the test has proved satisfactory.

(5) The cubic capacity of a boat may be assumed to be the product of the length, the breadth and the depth multiplied by 0·6 in cases where it is clear that this formula does not give a greater capacity than that obtained by the above method. The dimensions shall then be measured in the following manner:—

Length: From the intersection of the outside of the planking with the stem to the corresponding point at the stern post or, in the case of a square sterned boat, to the after side of the transom.

Breadth: From the outside of the planking at the point where the breadth of the boat is greatest.

Depth: Amidships inside the planking from the keel to the level of the gunwale, but the depth used in calculating the cubic capacity may not in any case exceed 45 per cent. of the breadth.

In all cases the shipowner shall have the right to require that the cubic capacity of the boat shall be determined by exact measurement.

(6) If the oars are pulled in rowlocks, the bottom of the rowlocks shall be considered as the gunwale in measuring the depth of the boat.

(7) **Cubic capacity of motor boats.**—The cubic capacity of a motor boat shall be obtained from the gross capacity by deducting a volume equal to that occupied by the motor and wireless telegraphy installation and their accessories.

19. **Deck area and capacity of pontoon boats and of open boats of Class 2.**—In the case of pontoon boats and of open boats of Class 2 the surface in square feet shall be determined by the following formula:—

$$\text{Area} = \frac{l}{12}(2a+1\cdot5b+4c+1\cdot5d+2e)$$

l denotes the *length* in feet from the intersection of the outside of the planking with the stem to the corresponding point at the stern post.

a, *b*, *c*, *d*, *e* denote the *horizontal breadths* in feet outside the planking at the points obtained by dividing *l* into four equal parts and sub-dividing the foremost and aftermost parts into two equal parts (*a* and *e* being the breadths at the extreme sub-division, *c* at the middle point of the length and *b* and *d* at the intermediate points).

20. **Size of boats.**—No boat carried in compliance with these rules shall have a capacity of less than 125 cubic feet.

21. **Weight of persons.**—In the tests prescribed by these rules for determining the number of persons which a boat can accommodate each person shall be assumed to be an adult person wearing a life-jacket.

In verifications of freeboard the pontoon boats shall be loaded with a weight of at least 165 lbs. for each adult person that the pontoon boat is authorised to carry.

22. **Appliances for lowering boats.**—(1) The davits shall be of approved form and shall be suitably placed to the satisfaction of the Governor-General in Council. They shall be fitted on one or more of the decks in such positions that the boats can be efficiently lowered from them, and shall be so spaced and placed that the boats can be swung out with facility. Davits shall not be fitted in the bows of a ship, but they may be fitted in any other position in the ship, provided that the boats are not brought into dangerous proximity to a propeller at the time of launching.

(2) The davits, falls, blocks, and all other gear required for lowering the boats, shall be of sufficient strength to the satisfaction of the Governor-General in Council. In the case of pilgrim ships launched on or after the 1st June, 1935, they shall be of such strength that the boats can be lowered safely with the full complement of persons and equipment, the ship being assumed to have a list of 15 degrees.

(3) In the case of pilgrim ships launched on or after the 1st June, 1935, the davits shall be fitted with gear of sufficient power to ensure that the boats can be turned out against the maximum list under which the lowering of the boats is possible or the davits shall be of the quadrant or other such type as will ensure the above condition being fulfilled.

(4) The boat's falls shall be long enough to lower the boat into the water with safety when the vessel is light with a list of 15 degrees. Life-lines shall be fitted to the davit spans, and shall be long enough to reach the water when the vessel is light with a list of 15 degrees. Hooks shall not be attached to the lower tackle blocks.

(5) Means shall be provided for speedily, but not necessarily simultaneously or automatically, detaching the boats from the falls; the boats placed under davits shall be attached to the falls and kept ready for service; the points of attachment of the boats to the falls shall be sufficiently away from the ends of the boats to ensure their being easily swung clear of the davits; the boats' chocks shall be of such construction and arrangements as shall be satisfactory to the Governor-General in Council.

(6) Where more than one boat is served by the same set of davits, if the falls are of rope, separate falls shall be provided to serve each boat but where wire falls are used with mechanical appliances for recovering them, separate falls need not be provided.

The appliances used shall be such as to ensure lowering the boats rapidly in turn.

Where a mechanical appliance is fitted for the recovery of falls efficient hand gear shall also be provided.

(7) The Governor-General in Council may accept in lieu of davits or sets of davits any other appliance, appliances or arrangements, which appear to him at least as effective as davits for placing the boats in the water.

23. **Buoyant apparatus.**—Approved buoyant apparatus, whether buoyant deck seats, buoyant deck chairs or other buoyant apparatus, shall be deemed sufficient, so far as buoyancy is concerned, for a person or number of persons to be ascertained by dividing the number of pounds of iron which it is capable of supporting in fresh water by 32, and if the apparatus depends for its buoyancy on air shall not require to be inflated before use.

The number of persons to be supported shall be limited to the number of feet in the perimeter of the apparatus.

Such approved buoyant apparatus shall comply with the following conditions:—

(1) It shall be of approved material and construction.

(2) It shall be reversible and shall be effective and stable when floating either way up.

(3) It shall be of such size, strength and weight that it can be handled without mechanical appliances and, if necessary, can be thrown from the vessel's deck on which it is stowed.

(4) The air-cases or equivalent buoyancy shall be placed as near as possible to the sides of the apparatus.

(5) It shall be marked in such a way as plainly to indicate that it is buoyant and the number of persons for which it is approved.

24. **Stowing of boats, rafts, etc.**—(1) All boats attached to davits and all boats stowed under boats attached to davits shall be stowed in such a way that—

(*a*) they can be safely launched in the shortest possible time;

(*b*) they will not impede in any way the prompt handling of any other of the lifeboats attached to davits or stowed under boats attached to davits or the buoyant apparatus carried under Rule 8 or the marshalling of the persons on board at the launching stations, or their embarkation;

(*c*) even under conditions of list and trim unfavourable from the point of view of the handling of the boats as large a number of persons as possible can be embarked in them;

(*d*) except as hereinafter provided, they shall be so stowed as not to require lifting before being launched and so secured that they will have the best chance of floating free from the ship in case there is no time to launch them.

(2) With regard to the stowage of other additional lifeboats and buoyant apparatus the following provisions shall apply:—

(*a*) They shall not impede in any way the prompt handling of the lifeboats attached to davits or the additional boats stowed under boats attached to davits or the buoyant apparatus or the marshalling of the persons on board at the launching stations or their embarkation;

(*b*) the lifeboats may be stowed one above the other, or they may, subject to such conditions as the Governor-General in Council may impose, be fitted one within another, but where boats so fitted require lifting before being launched, they shall only be permitted if attached to davits operated by mechanical power appliances;

(*c*) the lifeboats may be stowed in rows across a deck, bridge or poop;

(*d*) as large a number of the boats as possible shall be capable of being launched on either side of the ship, either by means of approved appliances for transferring them from one side of the deck to the other, or by stowing in rows across the deck, or by some other equally satisfactory means;

(*e*) means shall be provided to the satisfaction of the Governor-General in Council for lowering the lifeboats into the water in the shortest possible time;

(3) where a boat is stowed underneath another boat there shall be provided approved removable supports or other approved appliances, so as to secure that the weight of a boat is not unduly supported by the boat underneath it;

(4) boats may only be stowed on more than one deck on condition that proper measures are taken to prevent the boats from a lower deck being fouled by those from a deck above;

(5) all buoyant apparatus shall be so stowed as to be readily available in case of emergency.

25. **Equipment for boats and buoyant apparatus.**—(1) Every boat which is carried by any pilgrim ship shall be equipped as follows:—

(*a*) With the full single banked complement of oars and two spare oars, and a steering oar.

(*b*) With two plugs for each plug hole, attached with lanyards or chains, and one set and a half of thole pins or crutches, attached to the boat by sound lanyards. Plugs shall not be required where proper automatic valves are fitted.

(*c*) With a sea anchor, a bailer, a galvanised iron bucket, a rudder and a tiller, or yoke and yoke lines, a painter of sufficient length, and a boathook. The rudder, the bailer, and the bucket shall be attached to the boat by sufficiently long lanyards, and kept ready for use.

(*d*) With a vessel or vessels capable of holding one quart for each person that the boat is deemed fit to carry. Each such vessel shall be kept filled with fresh water, and provided with a dipper with lanyard.

(*e*) With two hatches, one to be kept in each end of the boat, and to be attached to the boat by a lanyard.

(*f*) With a line securely becketted round the outside of the boat.

(*g*) With an efficient lantern trimmed, with oil in its receiver sufficient to burn eight hours; or with some other lantern or light at least as effective, approved by the Governor-General in Council.

(2) In addition to the equipment prescribed in sub-rule (1), the boats shall be equipped with:—

(*a*) A mast or masts, and at least one good sail and proper gear for each; but this does not apply to an approved motor boat.

(*b*) An efficient compass.

(*c*) An airtight case containing two pounds of biscuits for each person for whom the boat is approved.

(*d*) One gallon of vegetable or animal oil, and a vessel of approved pattern for distributing it on the water in rough weather. This vessel shall be capable of being attached to the sea anchor.

(*e*) One dozen self-igniting red lights in a watertight tin, and a box of suitable matches in a watertight tin.

(*f*) 1 lb. of condensed milk for each person the boat is certified to carry.

(3) All buoyant apparatus carried by a pilgrim ship shall be equipped as follows:—

(*a*) With two paddles and one boathook or two paddles and boathooks combined attached to the buoyant apparatus by lanyards.

(*b*) A painter of sufficient length.

(*c*) A line securely becketted round the outside of the apparatus.

(*d*) A self-igniting light and two signal flares of approved pattern, the self-igniting light to be attached to the buoyant apparatus by lanyards of suitable length:

Provided that on buoyant apparatus, designed to support less than twenty-five persons the paddles, boathook, light and flares need not be carried.

(4) All boats and buoyant apparatus shall be fully equipped before the ship leaves harbour and the equipment shall remain in the boat or buoyant apparatus throughout the voyage while the ship is at sea or shall be stowed in some convenient place where it will be immediately available in case of emergency.

(5) A motor boat need not carry a mast or sail or more than half the complement of oars but shall be provided with two boathooks.

26. **Side ladders.**—In every pilgrim ship approved rope ladders shall be provided at each set of davits.

Such ladders shall be of sufficient length to reach the waterline at the vessel's lightest sea going draft allowing for a list of 15 degrees and shall be carried in such a manner as to be always available for use in embarking the persons in the boats.

27. **Illumination.**—On all pilgrim ships in which the boat deck is more than 30 feet above the water, provision shall be made for the illumination from the ship of the lifeboats when alongside and in process of or immediately after being launched.

28. **Life-jackets.**—An approved life-jacket shall mean a jacket of approved material and construction, which is capable of floating in fresh water for 24 hours with 16½ lbs. of iron suspended from it, or any other approved appliance of equal buoyancy and capable of being fitted on the body. It shall be reversible and suitable both for adults and children. Life-jackets the buoyancy of which depends on air compartments are prohibited.

29. **Lifebuoys.**—(1) (*a*) An approved lifebuoy shall be of solid cork or other equivalent material. It shall be capable of floating in fresh water for at least 24 hours with 32 lbs. of iron suspended from it.

(*b*) Lifebuoys filled with rushes, cork shavings, granulated cork or any other loose granulated material, or whose buoyancy depends upon air compartments requiring inflation, are prohibited.

(2) All lifebuoys shall be fitted with beckets securely seized, and at least one on each side of the ship shall be fitted with a life-line at least 15 fathoms in length.

30. **Position of lifebuoys and life-jackets.**—All lifebuoys and life-jackets shall be suitably placed to the satisfaction of the Surveyor and so as to be readily accessible to all persons on board and their position shall be plainly indicated so that it may be known to those for whom they are intended.

Lifebuoys shall always be capable of being rapidly cast loose and shall not be rigidly secured in any way.

Life-jackets may be stored either in battens over the passenger decks or in boxes under the charge of serangs as well as in the buoyant seats when these are used. The contents of the boxes shall be clearly painted on them and illustrated notices in the vernacular shall be posted up in different parts of the ship explaining to passengers where to find life-jackets and how to use them. In addition, their use shall be demonstrated by the crew both during boat drills and periodically at other times.

31. **Exemptions.**—(1) Any lifeboat which forms part of the equipment of a pilgrim ship that was launched before the 1st June 1933 and which has been inspected and approved by the Governor-General in Council before that date, may be accepted as equivalent to a lifeboat so long as it remains in good condition.

(2) Lifeboats which were ordered before the 1st June 1933 in order to complete the equipment of a ship, but which were not delivered in time to be inspected by the Governor-General in Council before that date, may be accepted as equivalent to lifeboats so long as they remain in good condition:

Provided that such lifeboats shall not be so accepted, unless—

(*a*) they have been inspected, where this has not already been done;

(*b*) they would have complied with the requirements of the rules in force prior to the 1st June 1933.

32. (1) When it appears to the Governor-General in Council, on the application of the owner of a pilgrim ship carrying more than 12 berthed passengers, that it is not practicable or reasonable to fit in that ship the number of sets of davits required by these rules, he may authorise under exceptional circumstances a smaller number of sets of davits provided that the number carried shall not be less than the minimum fixed in column B of the table in rule 37 and that the capacity of the life-boats carried is at least up to the minimum capacity specified in column D of the table.

The owner of such a ship shall be required to satisfy the Surveyor by a practical test in his presence that all the boats carried can be launched in reasonable time, the number of hands employed in the operation not exceeding the total number of boat hands that will be carried on board under normal service conditions and each boat having, when lowered, at least two men on board and its full equipment.

(2) If it appears to the Governor-General in Council, on the application of the owner of any pilgrim ship that it is not practicable or reasonable in a particular case to require that pontoon lifeboats, made before the 1st June, 1935, and carried on ships of which the keels were laid on or before that date, shall have the minimum freeboard specified in these rules or the bottom and deck made in two thicknesses with textile material between, the Governor-General in Council may in his discretion dispense with full compliance with the rules in these respects subject to such conditions, if any, as the Governor-General in Council may impose.

33. **Drill.**—(1) In all ships to which these rules apply, a boat drill and a watertight door drill shall be held as soon as possible after leaving the original port of departure and thereafter once a week during the voyage when practicable, at which a number of the male passengers (*e.g.*, the single men) when this is practicable shall be mustered apart from the others in a convenient place whence they can be readily requisitioned to assist in swinging out boats or rounding up falls, etc., if required. Such drills shall be recorded in the official log book.

(2) The Surveyor shall be satisfied, in each case before the ship leaves port, that a routine has been devised and communicated to each officer of the ship for securing an efficient working of the boats. In all cases a police system shall be organised to the satisfaction of the Surveyor so as to secure obedience to orders and proper control and guidance of all on board in times of emergency.

(3) In carrying out the boat and watertight door drills the crew will, when practicable, drill in their life-jackets and arrangements shall be made, when possible, for passengers to see the crew putting their life-jackets on. Entries in the official log book shall state whether and when this has been done.

34. **Emergency boat.**—In all pilgrim ships which are required under these rules to carry two or more boats, an emergency boat shall be carried slung out and ready for action whilst the ship is at sea.

35. **Boat-decks.**—Special boat-decks shall be kept entirely clear of passengers, and in the case of shade-decks, bridge-decks and poop-decks, which are utilized for carrying passengers as well as boats, a space sufficient for the working of the boats shall be railed off; and where boats stowed on a shade, bridge or poop-deck occupy half or more of the total breadth of the deck, the whole of the space abreast the boats shall be railed off and treated as a special boat-deck.

36. **Stowage.**—The stowage of boats and buoyant apparatus in any pilgrim ship shall not be passed by the Surveyor as complying with these rules unless he is satisfied that every part of the life saving equipment is readily available.

37. **Sets of davits and aggregate capacity of lifeboats.**—The following table fixes* according to the length of ship the minimum number of sets of davits to be provided in pilgrim ships and the minimum aggregate capacity of the lifeboats carried on board in accordance with these rules:—

*NOTE.—The number of sets of davits and the boat capacities of ships not provided for in the Table shall be prescribed by the Governor-General in Council

38. Notwithstanding anything contained in rules 7 to 37, when a ship has at any time before the 1st June, 1933, obtained certificate A in the form required under section 154, for a pilgrim ship, the arrangements on such ship shall be considered by the Governor-General in Council on the first occasion after the 1st June, 1933, on which application is made for another such certificate and the Governor-General in Council shall thereupon require such improvements, if any, as are in his opinion practicable and reasonable to be made not later than the first day of June, 1935, and, subject to the making of the said improvements by the said date, the ship shall be exempt from any of the provisions of these rules which would necessitate the making of improvements in excess of those which the Governor-General in Council has required to be made.

Instruments for purposes of navigation.

39. Every pilgrim ship shall be provided with—

(*a*) not less than three good ship's compasses and with a record of the deviation of her compasses on every point, entered in the log-book;

(*b*) Admiralty or Indian Government charts and sailing directions suitable for the voyage she is about to undertake;

(*c*) not less than two chronometers and not less than two sextants or quadrants and barometers, one of the latter being a mercurial barometer;

(*d*) a deep-sea leadline and lead.

Fire extinguishing appliances.

40. **Spaces occupied by passengers and crew.**—(1) On every ship of more than 4,000 tons gross tonnage, at least three, and on every other ship at least two, steam or equivalent pumps shall be available for the spaces occupied by passengers and crew: provided that more than two pumps shall not be required on ships whose keels were laid before the 1st September 1931. Each such pump shall be capable of providing a full supply of water, in accordance with the requirements specified in sub-rule (1) of rule 43, to one or more ranges of water service pipes. The service pipes shall be of metal, with branches so arranged that the fire hoses may be coupled thereto, and two powerful jets of water may be rapidly and simultaneously brought to bear, by means of single lengths of hose from each branch, upon any part of each deck space occupied by passengers or crew, when the watertight and fire doors are closed. Where the water service is on an exposed deck, the branches necessary to comply with the foregoing requirements shall, in the case of vessels whose keels are laid after the 1st September 1931, be fitted on both sides of the deck.

Provided that in the case of vessels whose keels were laid before the 1st September 1931, the main engine sanitary pump shall be allowed to count as one of the pumps required to be available if it is so fitted as to be capable of serving the purpose of such pump.

(2) Every ship shall carry an efficient portable hand pump with suction and hose complete.

(3) Portable chemical fire extinguishers of an approved pattern shall be carried in every compartment wherein passengers and crew are accommodated. There shall be two extinguishers in each such compartment, and when passengers are carried in enclosed spaces above the upper-deck, there shall be at least one extinguisher on each side of such spaces at intervals of not more than 60 feet.

41. **Cargo spaces.**—On every ship arrangements shall be made whereby two powerful jets of water may be rapidly and simultaneously directed into any cargo compartment, and, save in the case of a ship of less than 1,000 tons gross tonnage, satisfactory means shall also be provided whereby steam or other gas incapable of supporting combustion may be conveyed to each such compartment.

42. **Machinery and bunker spaces.**—(1) Arrangements shall be made in ships which use coal as fuel whereby two powerful jets of water can be rapidly and simultaneously directed into any part of the coal bunker spaces, boiler rooms and machinery spaces.

(2) In ships in which the main boilers are oil fired the following additional arrangements shall be made:—

(*a*) The fire hoses in the machinery spaces shall be provided with additional conductors suitable for spraying water on oil without undue disturbance of the surface.

(*b*) In each firing space there shall be placed a receptacle containing 10 cubic feet of sand, sawdust impregnated with soda, or other approved dry material; and scoops for distributing the same.

(*c*) In each boiler room, and in each of the machinery spaces in which a part of the oil fuel installation is situated, there shall be provided two approved portable chemical extinguishers of a type discharging froth or other approved medium suitable for quenching oil fires.

(*d*) Means shall be provided whereby froth may be rapidly discharged and distributed over the whole of the lower parts of any boiler room or of any machinery space in which oil fuel units or settling tanks may be situated. The quantity of froth which can be discharged should be amply sufficient to cover up to a depth of 6 inches the whole area of the plating formed in any one compartment by the inner bottom plating, or by the shell plating of the vessel if there is no double bottom tank. If the engine and boiler rooms are not entirely separate, and fuel oil can drain from the boiler room bilges into the engine room, the combined engine and boiler rooms shall be treated as one compartment. Provided that if other effective means are available for combating fire and the apparatus can be controlled from outside the compartment in which fire may occur, the Governor-General in Council may exempt from the requirements of this clause ships whose keels were laid before the 1st September 1931 on which it would not be reasonable to require the fitting of large froth installations.

(*e*) There shall further be provided one extinguisher of at least 30 gallons capacity in ships having one boiler room, and two such extinguishers in ships with more than one boiler room. These extinguishers shall be provided with hoses on reels suitable for reaching any part of the boiler rooms and spaces containing oil fuel pumping units: Provided that the Governor-General in Council may permit the fitting of any other equally efficient apparatus in place of the 30 gallons extinguisher.

(*f*) All containers and valves by which they are operated shall be easily accessible and so placed that they will not readily be cut off from use in case of fire.

43. **Pumps.**—(1) In all ships each of the steam or equivalent pumps shall be capable of supplying simultaneously two powerful jets of water for use in any part of the vessel. The pumps shall be worked by steam or by some other equally efficient motive power, and shall always be available for immediate use at all reasonable times when the vessel is in commission.

(2) All steam or equivalent pumps shall be provided with effective escape valves suitably adjusted and so placed as to prevent excessive pressure in any part of the water service system.

44. **Water service pipes.**—The main water service pipes shall be made of wrought material, and, if of iron or steel, shall, in the case of vessels whose keels are laid after the 1st September 1931, be galvanised. They shall be sufficiently large in diameter for the adequate supply of water to the fire hoses which shall be secured to them for simultaneous operation. The branches shall be so placed that the fire hoses may be conveniently coupled to them, and cocks or valves shall be fitted where required to admit of any hose being removed, if desired, while the pumps are at work.

45. **Fire hoses.**—(1) The fire hoses shall be of leather, seamless hemp, flax canvas of first-class quality, or other approved material. They shall be provided with suitable metal unions and conductors, and with gooseneck connections where necessary.

(2) A sufficient number of fire hoses with attachments and conductors shall be suitably distributed about different decks in the ship so as to be readily available for rapid use in any space occupied by passengers or crew, and not less than three hoses and attachments shall be provided in any vessel,

(3) The fire hoses and the conductors, and other apparatus referred to in sub-rules (1) and (2), together with coupling wrenches if required, shall be kept ready for use in conspicuous positions near the water service hydrants or connections. They shall be used only for the purposes of extinguishing fires or for testing the fire extinguishing apparatus at fire drills and surveys, and not for washing decks.

46. **Arrangements for injecting steam or other gas into cargo spaces and boiler rooms.**—Where provision is made for the injection of steam or other gas into the cargo spaces and boiler rooms for fire extinguishing purposes the necessary pipes for conveying the steam or gas to holds or other compartments shall be provided with controlling valves or cocks readily accessible from the deck and so marked as to indicate clearly the compartments to which the pipes are respectively led. Suitable provision shall be made for locking these valves or cocks so as to prevent inadvertent admission of the steam or gas to any compartment. If any pipe is led to a space to which passengers have access, it shall be furnished with an additional stop valve or cock also capable of being locked. Provided that the Governor-General in Council may permit the substitution of any other equally efficient safety device giving the requisite security from danger.

47. **Fluid fire extinguishers.**—(1) A sufficient number of approved portable fluid fire extinguishers discharging water shall be provided in accordance with the requirements of rules 40 and 42. For ordinary purposes not specifically referred to in these rules, the capacity of portable extinguishers shall be not more than three imperial gallons, and not less than two imperial gallons, provided the Governor-General in Council may, in his discretion, permit the use of an extinguisher of less than two gallons capacity in special circumstances.

(2) An approved type of portable extinguisher discharging a medium other than water may in the case of not more than 20 per cent of the total number of extinguishers required to be carried be substituted for the ordinary water-discharging extinguisher.

(3) The portable hand fluid fire extinguishers (apart from those supplied in boiler rooms, etc., specially for use in connection with oil fuel) shall not be of more than two types in any one ship.

(4) All extinguishers, whether portable or otherwise, shall be placed in positions where they are readily accessible.

48. **Smoke helmets and safety lamps.**—At least two smoke helmets and two safety lamps of approved types shall be included in the fire extinguishing equipment of every vessel and the helmets shall be stowed separately. The members of the crew shall be practised regularly in their use.

49. **Emergency appliances.**—The necessary emergency fire appliances such as knives, axes, and crowbars, shall be kept in a place readily accessible at all times from different parts of the ship.

50. **Fire drill.**—Fire drill shall be observed at least once a week on board all vessels and during such drill all fire appliances shall be put into use and the fact entered in the log book. The great utility of wooden or asbestos blankets for smothering small fires shall always be impressed on all persons taking part in a fire drill.

51. **Custody of fire apparatus and fire patrol.**—(1) The fire apparatus shall be placed by the master under the special charge of one of the principal officers of the ship and of the ship's carpenter, who shall both be held responsible that the apparatus is kept in a state fit for immediate use. As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire.

(2) A continuous patrol system shall be organised so that any outbreak of fire may be promptly detected.

52. **Stowage of cargo and disposal of inflammables.**—(1) The cargo of every ship shall, before she leaves port, be properly stowed away, and the decks shall be cleared of any loose straw, hay and other inflammable material. Any goods which are dangerous by reason of their inflammability or liability to explosion shall be stowed, subject to the provisions of any law or rules in force, in such manner as to safeguard the ship from danger of fire or explosion. The tanks of motor cars carried on the ship shall be drained before loading.

(2) Before a ship leaves port, every passenger shall deliver up any lucifer matches, gun-powder or other inflammable article in his possession.

53. **Use of naked lights and spirits.**—Naked lights shall not be used in the holds or store rooms or between decks, except under trustworthy superintendence. No person shall read in bed with a naked light. Casks or drums containing spirit shall not be opened in the hold but shall be hoisted on deck for the purpose.

54. **Smoking.**—Smoking in the between-decks shall be strictly prohibited.

55. **Relaxation of rules.**—In the case of a small vessel under 200 feet in length when it is shown to be unreasonable to require full compliance with any of the provisions of these rules, such relaxation shall be granted as the Governor-General in Council may, having regard to all the circumstances of the case, direct.

Means for making signals of distress.

56. **Signals of distress.**—Any of the following commonly recognised night signals of distress may be used either together or separately:—

(1) A gun or other explosive signal fired at intervals of about a minute.

(2) Flames on the vessel (as from a burning tar or oil barrel).

(3) Rockets or shells, throwing stars of any colour or description, fired one at a time at short intervals.

(4) A continuous sounding with any fog signal apparatus.

(5) The international distress signal made by radiotelegraphy or radiotelephony or by any other distance signalling method.

57. **Means of making signals of distress to be provided.**—All ships shall be provided with the means of making signals of distress at night specified in rules 58 to 60 or, in lieu thereof, with such other means of making signals of distress as have been previously approved.

58. **Gun.**—(1) One gun at least 3½ inches in the bore, or one mortar at least 5½ inches in the bore, shall be carried on all ships, with 24 charges of ammunition in the case of foreign-going ships, and 12 charges in the case of home-trade ships.

(2) Each charge shall contain 16 ozs. of powder in a flannel bag. The necessary requisites for firing the gun, *namely*, rammers, sponges, wads, priming wires, friction tubes, powder flask, with fine powder for priming and means for firing and withdrawing the charges, shall also be provided.

(3) Approved socket distress signals and sound signal rockets may be carried in lieu of a gun, provided that the number of signals so carried shall be equal to the number of charges of ammunition required under sub-rule (1).

59. **Deck flares.**—Two deck flares, self-igniting in water, shall be provided in every ship. Such deck flares shall be capable of burning brightly for at least 40 minutes. Full instructions for use shall be attached to each flare, and suitable receptacles for containing the water required for their combustion shall be provided, efficient means being adopted for ensuring free flow of water to the bottom of the light.

60. **Rockets and socket signals.**—(1) Twelve rockets or shells, throwing stars of any colour or description, shall be supplied, each rocket containing 16 ozs. of composition.

(2) Approved socket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1). If socket signals are also carried in lieu of a gun and charges of ammunition, the number shall be equal to the total number of charges of ammunition and of rockets required under sub-rule (1) of rule 58 and sub-rule (1) of this rule. Socket signals shall be fired only from the sockets supplied by the makers of the signals.

(3) The socket used for firing the socket signals shall in all cases be fixed at an angle which shall approximate as closely as possible to, but shall not be less than, 20 degrees from the perpendicular, so as to obviate the risk of a signal falling on the vessel's deck if it fails to rise to the usual height. The sockets shall be of sufficient strength, and of such a gauge as to ensure that the signal will rise to a safe height before exploding.

(4) In all cases where socket signals are carried there shall be at least two sockets, one forward and one aft, on opposite sides of the vessel.

61. **Testing and renewal of signals.**—All pyrotechnic signals shall be clearly and permanently marked or stamped with the date of manufacture. Adhesive labels or painted figures alone shall not be accepted in lieu of such marking or stamping. Where sheet brass labels are used in contact with tin cases, the brass plates shall be properly soldered on and there shall be no corrosion of the canister.

62. **Stowage of signals and combustibles.**—(1) A separate, detached, and completely enclosed receptacle shall be provided for *each* of the following kinds of explosives:—

(1) gun powder or cartridges made therewith;

(2) rockets;

(3) socket signals;

(4) deck flares and lifebuoy lights;

(5) any other description of pyrotechnic signals.

(2) Such separate receptacles shall not be made merely by divisions or partitions in a cupboard or locker or chest, but each such receptacle shall be a separate magazine, exclusively appropriated to the keeping of explosives of the kind in question. Charges of powder, if carried, shall be contained in flannel bags, and the magazine in which they are kept shall be made of copper and strongly constructed. To prevent injury to the rockets and other signals, the receptacles shall either be internally divided in such a way that the signals can be stowed vertically, or they shall be of roughly the same length as the signals, but sufficiently narrow to prevent the signals being turned round. The lids shall be secured by hinges or brass screws so as to permit of an inspection being made without injury to the case. The receptacles shall, where possible, be kept in a house on deck, and stowed or ranged as far apart as circumstances will permit, so that in the event of spontaneous combustion, or of risk of any sort arising any of the cases may be at once removed. Where the socket signals are supplied by the manufacturer in wooden boxes with a tin box inside containing the friction tubes, no other receptacle shall be required for the latter.

(3) No article of an explosive or highly inflammable character shall be carried in any room or place in which any receptacle containing distress signals is deposited.

63. In the case of a small vessel under 200 feet in length when it is shown to be unreasonable to require full compliance with any of the provisions of these rules, such relaxation shall be granted as the Governor-General in Council may, having regard to all the circumstances of the case, direct.

Fittings and other appliances to be provided on the upper deck and in between-decks.

64. (1) The Inspector shall see that sufficient ventilators are provided for the between-decks to give each pilgrim (*a*) in the upper between-deck 5 square inches, and (*b*) in the

lower between-deck 10 square inches of ventilation area exclusive of hatches and side scuttles, and that the ventilators are so placed as to afford an equable diffusion of air through all parts. The ventilators of the lower between-deck must act separately from those of the upper between-deck and, if pilgrims are carried on a deck below the lower between-deck, such lower between-deck, shall be ventilated by an approved mechanical system. Mechanical ventilation may be accepted in place of natural ventilation, but in all cases where it is proposed to fit mechanical ventilation, full details of the arrangement with drawings shall be submitted for the approval of the Governor-General in Council.

(2) No pilgrim shall be accommodated on any deck lower than the first between-deck which is below the water-line.

65. Such provision shall be made for affording light to the between-decks by means of side scuttles as the circumstances of the case may, in the judgment of the Inspector, require. The pilgrims shall have the free and unimpeded use of the whole of every hatchway situated over the space appropriated to their use, and each hatchway shall be covered by such substantial gratings as shall, in the opinion of the Inspector, afford the greatest obtainable amount of light and air whenever such hatchway is used as a companion way to the between-decks, there shall be erected over it a booby hatch to the satisfaction of the Inspector.

66. (1) Every pilgrim ship shall be lighted with efficient lighting by electricity to the satisfaction of the Inspector and shall carry at least six electric torches of a pattern approved by the Inspector to be utilised under the orders of the master of the ship for the purpose of providing illumination in the compartments occupied by pilgrims in the event of a failure of the main lighting arrangements.

(2) In every new ship there shall be two electric generators one of which shall be situated above the bulkhead deck.

(3) For the purposes of sub-rule (2) a new ship means a ship whose keel is laid after the expiry of two years from the date on which these rules come into force or which has not been certified to carry pilgrims during a period of two years prior to that date.

67. Efficient wind-scoops shall be provided for at least 25 per cent. of the opening scuttles on decks on which pilgrims are accommodated, at least two being provided in each separate compartment, and they shall be placed in position whenever weather conditions permit.

68. The number of pilgrims to be accommodated in any separate compartment shall be conspicuously marked on the bulkheads of such compartment in English and Urdu characters in the case of a ship sailing from Bombay or Karachi and in English and Bengali characters in the case of a ship sailing from Calcutta.

69. The space to be occupied by pilgrims in any compartment shall be clearly demarcated by lines so as to divide it into small blocks capable of accommodating in accordance with the requirements of sub-section (1) of section 193 or of any order issued by the Governor-General in Council under the said sub-section, pilgrims in batches of 5, 8, 10, 12 or other numbers not exceeding 12. The number of pilgrims which every such block is capable of accommodating shall be marked in that block in English and Urdu in the case of a ship sailing from Bombay or Karachi and in English and Bengali in the case of a ship sailing from Calcutta.

70. On the upper deck as well as in every compartment in the between-decks to be occupied by pilgrims, there shall be provided an alley-way at least 1½ feet in width. Every such alley-way shall be clearly demarcated by lines.

71. In every compartment allocated for the accommodation of pilgrims and occupying the full breadth of the ship there shall be fitted along the ships side sleeping boards for the use of the pilgrims of sufficient strength to the satisfaction of the Inspector.

The sleeping boards shall be so arranged as to provide, so far as practicable, a continuous shelf 6 feet in width along the ship's side at a height of 3 feet 6 inches above the deck The boards may be made in convenient sizes, and may be portable and capable of being folded against the ship's side or of being removed when not required for the use of pilgrims.

72. The upper-deck of every pilgrim ship shall be either of wood, or of iron or steel sheathed with wood and caulked.

73. Each hatchway (*a*) shall be provided with an awning or a large tarpaulin tent which shall in bad weather be spread well over the hatchway and securely fastened so as to keep out rain and let in fresh air, and in fine weather shall be rolled up and put out of the way; and (*b*) except where arrangements exist for lowering the derrick boom in a way which will serve the purpose, shall also be fitted with a strong iron or wooden A-shaped frame for the support of such tent.

74. Every pilgrim ship shall have poop, quarter deck, waist and forecastle awnings complete and in good order, and six windsails distributed as the Inspector may direct. The awning and windsails shall be kept up so long as the weather does not render this impossible.

75. Strong ladders 2½ feet wide with hand rails of a convenient height shall be provided for every hatchway used as such and not merely as a ventilator; and, as additional means of support for women and children, knotted handropes shall be fastened conveniently near the ladders.

76. The space to be occupied by pilgrims shall be kept clear from obstruction of any kind whatever and thoroughly clean and dry; nothing shall be slung up or stowed away between the beams. Every day while the pilgrims are on deck the between-decks shall be carefully cleaned and scrubbed with dry sand mixed with suitable disinfectants.

77. Bamboos, ropes or strong rails shall be securely fastened fore and aft to the midship stanchions on the between-deck.

78. No timber or cargo of any kind, and only the necessary fittings properly secured and live-stock for consumption on the voyage, shall be allowed on the upper-deck; which shall, save as aforesaid, be exclusively reserved for the pilgrims.*

79. No structural alteration such as the erection of deck-houses for the accommodation of pilgrims or the cutting of decks or side-plates for ventilators, side scuttles, etc., shall be effected in any pilgrim ship unless it is carried out with the previous permission and to the satisfaction of the Surveyor. When any such alterations, have not been carried out and approved by the Surveyor at the time of the survey of the vessel under Part III of the Act, a certificate from a Principal Officer of the Mercantile Marine Department that the alterations have been made with the permission and approval of the Surveyor shall be produced for the inspection of the Inspector.

Supply of cooked and uncooked food and water.

80. (1) (*a*) For the purposes of the supply of food during the voyage, pilgrims shall be divided into two classes, hereinafter referred to as class A and class B respectively.

(*b*) Class A shall comprise pilgrims who desire to be supplied daily with—

(*i*) morning tea;

(*ii*) day meal;

(*iii*) afternoon tea; and

(*iv*) evening or night meal.

(*c*) Class B shall comprise pilgrims who desire to be supplied daily with—

(*i*) either morning tea or afternoon tea; and

(*ii*) either day meal or evening or night meal.

(2) Every pilgrim of class A shall be provided by the master of the ship daily throughout the voyage with food on the following scale:—

(*a*) *Morning tea*—

(*i*) One cup of tea.

(*ii*) Two biscuits or one chapati, according to the pilgrim's choice.

(*b*) *Day meal*—

(*i*) Rice or chapatis, according to the pilgrim's choice, in such quantity as the pilgrim may require.

(*ii*) One plate of mutton and vegetable mixed, on alternate days.

(*iii*) One plate of vegetable dish, with or without dry fish according to the pilgrim's choice, on days on which item (*ii*) above is not supplied.

(*iv*) Dal in such quantity as the pilgrim may require.

(*v*) Kachumar or pickles.

(*c*) *Afternoon tea*—

One cup of tea.

(*d*) *Evening or night meal*—

(*i*) Rice or chapati according to the pilgrim's choice, in such quantity as the pilgrim may require.

(*ii*) One plate of vegetable dish.

(*iii*) Dal in such quantity as the pilgrim may require.

(*iv*) Kachumar or pickles.

(3) Every pilgrim of class B shall be provided by the master of the ship daily throughout the voyage with either morning tea or afternoon tea and with either day meal or evening or night meal, according to the pilgrim's choice, on the scale laid down in sub-rule (2).

(4) Every pilgrim shall, at the time of buying his ticket, inform the person who issues the ticket whether he—

(*i*) desires to be included in class A or class B;

(*ii*) will take rice or chapati for the day meal and the evening or night meal;

(*iii*) whether he will or will not have dry fish with the vegetable dish to be served on alternate days at the time of the day meal.

81. Arrangements shall be made on every pilgrim ship to make available to pilgrims, apart from the food to be supplied under sub-rules (2) and (3) of rule 80, the articles mentioned below, on payment of extra charges at the rate specified against each article:—

91. No certificate under section 155 shall be granted unless the condenser can not only supply the minimum quantity of water prescribed under rule 90 for each person on board, but also yield every 24 hours 500 gallons of pure, cold water fit to drink.

92. The tanks for storing drinking-water on board shall not be placed near the latrines. They shall be protected from all filth, and shall be so closed that the distribution of the water can be effected only by means of "waste-not" taps fitted to the tanks. (2) Where petroleum is carried in bulk for use as fuel for any pilgrim ship—

It shall have a flash point of not less than 150° Fahrenheit by Abel's close test and shall be carried in cellular double bottoms under engine and boiler compartments, or under ordinary holds or in peak tanks, deep tanks or bunkers of approved construction:

Provided that the oil fuel storage tanks and installations in connection therewith fully comply with the conditions described in the Instructions to Surveyors, contained in the Board of Trade Circular No. 1647 (Oil Fuel Installation in Passenger Steamship), dated January 1924.

With each supply of oil taken on board a written guarantee shall be supplied by the vendor, and signed by a responsible official in his employ, of the actual close test flash point, the type of instrument by which the test was made being in every case specified. These particulars shall be entered in the engine room log.

102. No pilgrim ship calling at Aden for the embarkation or disembarkation of pilgrims or for the loading or discharge of cargo shall be delayed at that port on account of the embarkation or disembarkation of pligrims or the loading or discharge of cargo for a period exceeding 12 hours.

103. No pilgrim ship carrying pilgrims from any port in British India and calling at any other port in British India except Aden, *en route* to the Hedjaz, for the embarkation or disembarkation of pilgrims or for the loading or discharge of cargo shall be delayed at the port of call, on account of the embarkation or disembarkation of pilgrims or the loading or discharge of cargo, for a period exceeding forty-eight hours.

Allotment of upper-deck space.

104. No cabin shall be provided for any pilgrim on the upper-deck unless space remains unallotted on that deck after providing the accommodation required for the permanent and temporary hospitals, latrines, and six superficial feet of airing space for every pilgrim on board. Such space as remains unallotted after making provision for these requirements may be reserved for the accommodation of pilgrims in cabins containing not less than 16 superficial and 96 cubic feet of space per pilgrim. No pilgrim shall be furnished with reserved accommodation on the upper-deck except in a cabin.

105. The airing space on the upper-deck may be distributed among pilgrims of different classes in such manner as the master or owner may desire: Provided that the airing space allotted to any particular class of pilgrims shall be sufficient to provide at least six superficial feet of such space for every pilgrim of that class.

Amount and distribution of baggage.

106. (1) Pilgrims' heavy baggage shall be registered and numbered and deposited in the hold before the ship leaves her moorings.

(2) Pilgrims shall be allowed to keep with them only such articles as are absolutely necessary and the articles so kept shall not exceed one maund (82 lbs.) in weight per pilgrim.

(3) If a pilgrim so desires, the master shall arrange for the safe custody of the pilgrim's valuables, except those of a bulky nature, during the voyage. A receipt shall be given to the pilgrim for the articles so received for safe custody and on presentation of the receipt the articles shall be returned to the pilgrim.

Hospital accommodation, medical stores, and arrangements for maintaining health, cleanliness and decency.

107. (1) The hospital accommodation required under section 195 shall be provided where convenient. A permanent hospital shall be provided for not less than 2½ per cent. of the pilgrims on board containing not less than six bunks, and having a deck area of at least 32 superficial feet and dimensions of not less than 192 cubic feet per head. On every pilgrim ship on which there are 50 or more female pilgrims, there shall be a separate permanent hospital, containing not less than two bunks with a deck area of at least 72 superficial feet and dimensions of not less than 432 cubic feet, which shall be reserved for the use of women and of children under 12 years of age. The hospitals shall be lighted and ventilated to the

If on deck they shall be made as secure as any other deck-house, and the roof shall be well caulked and covered with painted canvas.* No case of small-pox, cholera, yellow fever or plague shall on any account be treated in a permanent hospital. Permanent hospitals shall be used solely for the accommodation of sick pilgrims, and in so far as they are not required for the accommodation of such pilgrims, shall remain unoccupied.

(2) Every pilgrim ship shall be provided with mattresses blankets, pillows and bed-sheets in the proportion of one mattress, one blanket, one pillow and two bed-sheets for every 40 pilgrims. These articles shall as a rule be used only for non-infectious cases, and in the event of their being used at any time for infectious cases, they shall be destroyed immediately.

(3) Materials shall be carried for the construction on the upper-deck of a separate temporary hospital for the treatment of such cases of sickness as it may be considered desirable specially to segregate (such as small-pox, cholera, yellow fever or plague) and for use in the event of the permanent hospital accommodation becoming insufficient owing to any general outbreak of sickness. The part of the upper-deck upon which such hospital shall, if required, be erected, shall be pointed out and measured off by the Inspector. The framework of the hospital shall be either of iron (in pieces that can be easily fitted together) or of wooden spars or bamboos. The roof shall be tented, and both the roof and the side walls shall be made of stout canvas and be perfectly water-tight, due provision being at the same time made for ventilation.

The floor shall be raised at least 4 inches from the deck. The superficial area of the floor shall be not less than the greater of the following areas, namely:—

(*a*) 144 square feet or,

(*b*) such area as will, together with the permanent hospital, accommodate four out of every hundred, or fraction of an even hundred, of the pilgrims on board the ship.

(4) Every hospital, permanent or temporary, shall be provided with a special latrine.

(5) In cases of sickness which it has been considered desirable to segregate no person other than the Medical Officer and the person or persons charged with the duty of looking after the patients shall have access to the patients and any person other than the medical officer and medical attendants referred to in rule 156 who has had access to the patients shall, so far as possible, be prevented from coming into contact with any other person on board.

Medical Officer.

Health Officer.

Dated *Ship.*

113. (1) Every pilgrim ship shall carry a disinfecting stove approved by the Health Officer of the port in British India at which the voyage is to commence.

(2) Articles of bedding, carpets and clothes which have been used by patients affected with cholera, plague, dysentery or any other infectious disease or by persons who have had access to such patients shall, if their value is negligible, be thrown into the sea or if the ship is in a port or canal be destroyed by fire. If their value is more than negligible, they shall immediately be carried for disinfection to the disinfecting stove in impermeable bags sprinkled with a solution of corrosive sublimate and shall be disinfected under the supervision of the Medical Officer.

(3) The excreta and dejecta of persons showing symptoms of cholera, plague, dysentery or any other infectious disease, who are not able to use the hospital latrines shall be collected in vessels containing a disinfecting solution, and vessels shall be emptied into the hospital latrines which shall be thoroughly disinfected every time this is done.

(4) Articles other than those specified in sub-rule (2) which have come into contact with persons suffering from cholera, plague, dysentery or any other infectious disease shall be thoroughly disinfected in the following manner:—

(*a*) Articles so contaminated or suspected of being so contaminated shall, unless they are liable to be destroyed by exposure to heat, be disinfected in the disinfecting stoves under pressure, the stove being maintained at a temperature (to be tested during each operation) of 220° Fahr. and the articles being exposed to this temperature for 15 minutes.

(*b*) Articles liable to be destroyed by exposure to the heat of a disinfecting stove, such as metals, leather, tables, lockers, etc., shall be disinfected by being washed with disinfecting solution.*

*One of the following disinfecting solutions should be used—

Hydrocholoric acid, 1 oz.
Water, 3 gallons.
Fuchsin or losin, 5 grains.

(*b*) Phenol, five parts in 100 parts of water.

(*c*) Fresh slaked lime.

The different disinfecting solutions are useful for the following purposes:—

(*a*) Linen, clothes and articles soiled by the evacuations of cholera patients should be put into the corrosive sublimate solution.

(*b*) Persons in attendance on the sick should use the corrosive sublimate solution, when washing themselves in the proportion of one part of the solution to 2,000 parts of water.

(*c*) Phenic acid should be used to disinfect articles which cannot be exposed to a temperature of 220° Fahr. or to contact with sublimate solutions, such as metals, instruments, etc.

(*d*) Slaked lime is specially useful to disinfect the evacuations of cholera patients; in the absence of slaked lime phenic acid will answer the same purpose. When slaked lime is used for disinfecting liquids, it should be used in the proportion of three lbs. of lime to ten gallons of the liquid to be disinfected.

(5) Ships on which cases of cholera, plague, dysentery or any other infectious disease have occurred shall be disinfected in the following manner:—

(*a*) The cabins† and all parts of the ship occupied by patients suffering or suspected to be suffering from any such disease shall be emptied, and all articles removed and disinfected in accordance with sub-rule (4).

(*b*) The interior sides, bulkheads, floors and decks of the ship shall be washed with corrosive sublimate solution‡ with the addition of 10 per cent. of alcohol (*i.e.*, one gallon of methylated alcohol to every ten gallons of the corrosive sublimate solution), and two hours after washing, shall be scrubbed, and then thoroughly washed down with plenty of water.

(*c*) The hold of the ship shall be strewn from time to time with a sufficient quantity of iron sulphate to neutralise the sulphuretted hydrogen, and the water in the hold shall then, unless the ship is in dock, be pumped out and the hold washed with seawater and sprinkled with corrosive sublimate solution.

A note on the Pupil's materials in the Drawing Class.

It appears (though it is not very clearly put in the syllabus) that work in classes 3 and 4 is in pencil and pastel. In class 4 water colour is introduced.

Pencil work requiries a drawing book containing white drawing paper, a decent pencil, a piece of good India rubber, and two or three sharp knives in the class. At present a great deal of the drawing is done in ordinary khatas, with cheap pencils having blunt points, and a wet finger is used as a substitute for India rubber.

Pastel work requires a book of coloured paper, one box of about 10 colours for each child, and a stock of the deeper colours in *dur* or *demi-dur* crayons for general use. These deeper colours are rather more expensive than the usual, costing from 1d. to 6d. a stick; they are unobtainable in India; they have to be obtained from London or direct from Le Franc in Paris. Without these colours it is impossible to give a correct representation of many objects, e.g., the shadows on a leaf or fruit require a deep blue-green which is not contained in the standard boxes of the pupils.

To get good work in water colour it is absolutely necessary that the pupils should use good colours—and the right colours. It is usually considered best for the teacher to have the colours in tubes and to press out small dabs of the colours needed on to the pupil's palette. The ordinary paint boxes sold in stationery shops contain more colours than the child should use, and those of a very bad quality.

In short the pencils, pastels and colours must be supplied by the school; not by the individual. This is not only cheaper for the parent, but is also an essential condition of good work.

When a straight line cuts two other straight lines, if—

(1) a pair of alternate angles are equal, or

Obligations of Government and the Bank in respect of rupee coin.

38. The Governor General in Council shall undertake not to re-issue any rupee coin delivered under section 36 nor to put into circulation any new rupees, except through the Bank and as provided in that section; and the Bank shall undertake not to dispose of rupee coin otherwise than for the purposes of circulation or by delivery to the Governor General in Council under that section.

Obligation to supply different forms of currency.

39. The Bank shall issue rupee coin on demand in exchange for currency notes of the Government of India, and shall issue currency notes or bank notes on demand in exchange for coin which is legal tender under the Indian Coinage Act, 1906, and it shall, in exchange for currency notes or bank notes of five rupees or upwards, supply currency notes or bank notes of lower value or rupees or other coins which are legal tender under the Indian Coinage Act, 1906, in such quantities as may, in the opinion of the Bank, be required for circulation; and the Governor General in Council shall, subject to the provisions of section 36, supply such rupees or other coins to the Bank on demand. If the Governor General in Council at any time fails to discharge this duty, the Bank shall be released from its obligations to supply such coins to the public.

II of 1906.

III of 1906.

Obligation to sell sterling.

40. (*1*) The Bank shall sell, to any person who makes a demand in that behalf at its office in Bombay, Calcutta, Delhi, Madras or Rangoon and pays the purchase price in legal tender currency, sterling for immediate delivery in London, at a rate not below one shilling and five pence and forty-nine sixty-fourths of a penny for a rupee:

Provided that no person shall be entitled to demand to buy an amount of sterling less than ten thousand pounds.

Obligation to buy sterling.

41. The Bank shall buy, from any person who makes a demand in that behalf at its office in Bombay, Calcutta, Delhi, Madras or Rangoon, sterling for immediate delivery in London, at a rate not higher than one shilling and six pence and three-sixteenths of a penny for a rupee:

(*5*) Any bank failing to comply with the provisions of sub-section (*3*) or sub-section (*4*) shall be liable, on application made by or on behalf of the Governor General in Council to the principal Civil Court having jurisdiction in a place where an office of the bank is situated, to a penalty of one hundred rupees for each day during which the failure continues.

(*6*) When it appears from any such monthly return or from a report of the Central Board that any scheduled bank has failed to maintain the minimum balance required by sub-section (*1*), the Governor General in Council may call for such further return, or make such inspection of the books and accounts of that bank, as may be necessary to ascertain the amount of the deficiency, if any, and the period during which it has continued; and a bank so in default shall be liable, on

application made by or on behalf of the Governor General in Council to the principal Civil Court having jurisdiction in a place where an office of the bank is situated, to a penalty at a rate per annum which shall be three per cent. above the bank rate on the amount of the deficiency for each day during which the default has continued, and shall be raised to five per cent. above the bank rate after the first seven days of the deficiency.

(7) The Governor General in Council shall, by notification in the Gazette of India, direct the inclusion in the Second Schedule of any company, not already so included, which carries on the business of banking in British India and which—

(*b*) has a paid-up capital and reserves of an aggregate value of not less than three lakhs of rupees;

and shall, by a like notification, direct the exclusion from that Schedule of any scheduled bank the aggregate value of whose paid-up capital and reserves at any time becomes less than three lakhs of rupees, or which goes into liquidation or otherwise ceases to carry on banking business.

43. The Bank shall enter into an agreement with the Imperial Bank of India which shall be subject to the approval of the Governor General in Council, and shall be expressed to come into force on the date on which this Chapter comes into force and to remain in force for twenty-five years, and shall further contain the provisions set forth in the Third Schedule.

CHAPTER IV.

GENERAL PROVISIONS.

Allocation of surplus.

44. After making provision for bad and doubtful debts, depreciation in assets, contributions to staff and superannuation funds, and such other contingencies as are usually provided for by bankers, and after payment out of the net annual profits of a cumulative dividend at such rate not exceeding five per cent. per annum on the share capital as the Governor General in Council may fix at the time of the issue of shares, the surplus shall be allocated as follows:—

(*a*) one-half to a Reserve Fund, until such Reserve Fund is equal to one-half of the share capital, and the remaining one-half to the Governor General in Council;

(*b*) thereafter, until the Reserve Fund is equal to the share capital, one-tenth to the Reserve Fund, and the balance to the Governor General in Council; and

(*c*) when and for so long as the Reserve Fund is not less than the share capital, a portion to an additional dividend to the shareholders calculated on the scale set forth in the Fourth Schedule, and the balance to the Governor General in Council:

Provided that, so long as the Reserve Fund is less than the share capital, not less than fifty lakhs of rupees of the surplus, or the whole of the surplus if less than that amount, shall be allocated to the Reserve Fund.

Publication of bank rate.

45. The Bank shall make public from time to time the minimum rate at which it is prepared to buy or rediscount bills of exchange or other commercial paper eligible for purchase under this Act.

Auditors.

46. (*1*) Not less than two auditors shall be elected and their remuneration fixed at the annual general meeting. The auditors may be shareholders, but no Director or other officer of the Bank shall be eligible during his continuance in office. Any auditor shall be eligible for re-election on quitting office.

(*2*) The first auditors of the Bank may be appointed by the Central Board before the first annual general meeting and, if so appointed, shall hold office only until that meeting. All auditors elected under this section shall severally be, and continue to act as, auditors until the first annual general meeting after their respective elections:

Provided that any casual vacancy in the office of any auditor elected under this section may be filled by the Central Board.

Appointment of special auditors by Government.

47. Without prejudice to anything contained in section 46, the Governor General in Council may at any time appoint such auditors as he thinks fit to examine and report upon the accounts of the Bank.

Powers and duties of auditors.

48. (*1*) Every auditor shall be supplied with a copy of the annual balance sheet, and it shall be his duty to examine the same, together with the accounts and vouchers relating thereto; and every auditor shall have a list delivered to him of all books kept by the Bank, and shall at all reasonable times have access to the books, accounts and other documents of the Bank, and may, at the expense of the Bank if appointed by it or at the expense of the Governor General in Council if appointed by him, employ accountants or other persons to assist him in investigating such accounts, and may, in relation to such accounts, examine any Director or officer of the Bank.

(*2*) The auditors shall make a report to the shareholders or to the Governor General in Council, as the case may be, upon the annual balance-sheet and accounts, and in every such report they shall state whether, in their opinion, the balance-sheet is a full and fair balance-sheet containing all necessary particulars and properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs, and, in case they have called for any explanation or information from the Central Board, whether it has been given and whether it is satisfactory. Any such report made to the shareholders shall be read, together with the report of the Central Board, at the annual general meeting.

Returns.

49. (*1*) The Bank shall prepare and transmit to the Governor General in Council a weekly account of the Issue Department and of the Banking Department in the form set out in the Fifth Schedule or in such other form as the Governor General in Council may, by notification in the Gazette of India, prescribe. The Governor General in Council shall cause these accounts to be published weekly in the Gazette of India.

(*2*) The Bank shall also, within two months from the date on which the annual accounts of the Bank are closed, transmit to the Governor General in Council a copy of the annual accounts signed by the Governor, the Deputy Governors and the Chief Accounting Officer of the Bank, and certified by the auditors, and the Governor General in Council shall cause such accounts to be published in the Gazette of India.

(3) The Bank shall also, within two months from the date on which the annual accounts of the Bank are closed, transmit to the Governor General in Council a statement showing the name, address and occupation of, and the number of shares held by, each shareholder of the Bank.

Power to require declaration as to ownership of registered shares.

50. (1) The Local Board of any area may at any time require any shareholder who is registered on the Register for that area to furnish to the Local Board within a specified time, not being less than thirty days, a declaration, in such form as the Central Board may by regulations prescribe, giving particulars of all shares on the said Register of which he is the owner.

(2) If it appears from such declaration that any shareholder is not the owner of any shares which are registered in his name, the Local Board may amend the Register accordingly.

(3) If any person required to make a declaration under sub-section (1) fails to make such declaration within the specified time, the Local Board may make an entry against his name in the Register recording such failure and directing that he shall have no right to vote, either under section 9 or section 14, by reason of the shares registered in his name on that Register.

(4) Whoever makes a false statement in any declaration furnished by him under sub-section (1) shall be deemed to have committed the offence of giving false evidence defined in section 191 of the Indian Penal Code, and shall be punishable under the second paragraph of section 192 of that Code. XLV of 1860.

Liquidation of the Bank.

51. (1) Nothing in the Indian Companies Act, 1913, shall apply to the Bank, and the Bank shall not be placed in voluntary or compulsory liquidation save with the sanction of the Governor General in Council and in such manner as he may direct. VII of 1913.

(2) In such event the Reserve Fund and surplus assets, if any, of the Bank shall be divided between the Governor General in Council and the shareholders in the proportion of seventy-five per cent. and twenty-five per cent., respectively.

Power of the Central Board to make regulations.

52. (1) The Central Board may, with the previous sanction of the Governor General in Council, make regulations consistent with this Act to provide for all matters for which provision is necessary or convenient for the purpose of giving effect to the provisions of this Act.

(2) In particular and without prejudice to the generality of the foregoing provision, such regulations may provide for all or any of the following matters, namely:—

(a) the holding and conduct of elections under this Act, including, if the Central Board thinks fit, provisions for the holding of any elections according to the principle of proportional representation by means of the single transferable vote;

(b) for the final decision of doubts or disputes regarding the qualifications of candidates for election or regarding the validity of elections;

(*c*) the maintenance of the share register, the manner in which and the conditions subject to which shares may be held and transferred, and, generally, all matters relating to the rights and duties of shareholders;

(*d*) the manner in which general meetings shall be convened, the procedure to be followed thereat and the manner in which votes may be exercised;

(*e*) the manner in which notices may be served on behalf of the Bank upon shareholders or other persons;

(*f*) the manner in which the business of the Central Board shall be transacted, and the procedure to be followed at meetings thereof;

(*g*) the conduct of business of Local Boards and the delegation to such Boards of powers and functions;

(*h*) the delegation of powers and functions of the Central Board to the Governor, or to Deputy Governors, Directors or officers of the Bank;

(*i*) the formation of Committees of the Central Board, the delegation of powers and functions of the Central Board to such Committees, and the conduct of business in such Committees;

(*j*) the constitution and management of staff and superannuation funds for the officers and servants of the Bank;

(*k*) the manner and form in which contracts binding on the Bank may be executed;

(*l*) the provision of an official seal of the Bank and the manner and effect of its use;

(*m*) the manner and form in which the balance sheet of the Bank shall be drawn up, and in which the accounts shall be maintained;

(*n*) the circumstances in which, and the conditions and limitations subject to which, the value of any lost, stolen, mutilated or imperfect currency note of the Government of India or bank note may be refunded; and

(*o*) generally, for the efficient conduct of the business of the Bank.

Amendment of Act III of 1906.

53. In the Indian Coinage Act, 1906, for section 11 the following section shall be substituted, namely:— III of 1906.

Demonetisation of sovereign and half-sovereign.

"11. STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to set up a Reserve Bank for India. The Federal Structure Sub-Committee of the first Round Table Conference recommended that "with a view to ensuring confidence in the management of Indian credit and currency .... efforts should be made to establish on sure foundations and free from any political influence, as early as may be found possible, a Reserve Bank, which will be entrusted with the management of the currency and exchange." The Financial Safeguards Committee of the third Round Table Conference recommended "that steps should be taken to introduce into the Indian Legislature a Reserve Bank Bill conceived on the above lines as soon as possible." In the report of that Committee it was also placed on record that "the Secretary of State undertook that representative Indian opinion would be consulted in the preparation of proposals for the establishment of the Reserve Bank including those relating to the reserves."

2. A representative Committee was set up in order to give effect to that undertaking and a copy of its report is attached as an annexure. The present Bill is drafted in accordance with the recommendations of that Committee.

NOTES ON CLAUSES.

[In these Notes "Report" means the report of the Committee on Indian Reserve Bank Legislation, 1933, and "1928 Bill" means the Gold Standard and Reserve Bank of India Bill, 1928.]

Preamble.—The wording is intended to give effect to paragraph 19 of the Report.

Clause 1 reproduces clause 1 of the 1928 Bill with the following alterations:—

(*a*) In sub-clause (*3*) the date and the proviso giving dates for postponement have been omitted.

(*b*) Sub-clause (*4*) has been drafted in pursuance of the Committee's recommendation relating to this sub-clause, contained in Appendix 1 to the Report. Their intention was to provide a statutory assurance to the Bank when constituted that the provisions of Chapter III, relating to its central banking functions, would remain in operation for a period of not less than twenty-five years. It is recognised, however, that the sub-clause is inoperative as it cannot bind the Legislature in the future; and it will be for consideration at a later stage whether this assurance would not be more suitably expressed in clause 50, in the form of a limitation on the power of the Governor General in Council to grant sanction to the liquidation of the Bank.

Clause 2 follows clause 2 of the 1928 Bill. Some of the definitions have been omitted as unnecessary. The only alteration of substance is in sub-clause (*d*), where the definition of a gold standard country has been replaced by that of a sterling standard country, *vide* Appendix I of the Report [note on clause 2(*g*) of the 1928 Bill].

Clause 4 follows clause 4 of the 1928 Bill, with alterations made in accordance with paragraphs 3, 4 and 14 of the Report. In sub-clause (*5*) the distribution is as indicated in paragraphs 6 and 7 of the Report and the Rangoon register has been retained, *vide* paragraph 2 of the Report. Sub-clause (*6*) has been drafted with a view to giving effect to the intention of the Report and will require special consideration in the Joint Committee.

Clause 6 has been altered so as to make the establishment of a London branch optional, *vide* paragraph 8 of the Report.

Clauses 8 to 13 reproduce the proposals for the constitution of the Central Board, the method of election, the qualifications and disqualifications of candidates, the method of filling casual vacancies, and the provision for Local Boards, indicated in paragraphs 5 to 13 of the Report under the general head "The Board of the Bank." The opportunity has also been taken to rearrange clauses 8 to 13 of the 1928 Bill so as to make the arrangement clearer.

Clause 9 is new: it embodies the recommendations regarding Local Boards in paragraph 9 of the Report, and replaces the scheme of electoral colleges contained in clause 10 of the 1928 Bill.

Clause 10 embodies the recommendations in paragraphs 10 and 11 of the Report. It follows clause 8 of the 1928 Bill *mutatis mutandis*.

Clause 11 is drafted to give effect in a practical form to the intentions of the comments in Appendix I of the Report on clause 11(*l*) of the 1928 Bill.

Clause 12.—Sub-clause (*2*) has been drafted so as to give effect to the recommendation in the last sentence of paragraph 7 of the Report.

The rule-making powers contained in clause 13 of the 1928 Bill have been given to the Central Board and transferred to clause 52, where they appear as clauses (*a*) and (*b*) of sub-clause (*2*) (*vide* notes in Appendix I of the Report on that clause).

Clause 13.—Sub-clause (*2*) is new, and fills what appears to have been an omission from the 1928 Bill.

Clause 15 reproduces clause 16 of the 1928 Bill with the necessary modifications to give effect to the recommendations of paragraph 12 of the Report, and the different method for the election of Directors now proposed.

Sub-clause (*4*) represents an attempt to provide "suitable arrangements.....for retirement by rotation" as recommended in paragraph 12 of the Report.

Clause 17 reproduces clause 17 of the 1928 Bill with the inclusion of the points made in Appendix I of the Report.

Clause 18 reproduces clause 18 of the 1928 Bill with the addition of provision designed to meet the recommendation in the last sentence of paragraph 18 of the Report.

Clause 30 reproduces clause 43 of the 1928 Bill; it is placed here so as to make the arrangement clearer.

Clause 33 reproduces clause 31 of the 1928 Bill with the following alterations:—

(*a*) Sub-clause (*2*) incorporates the provision regarding gold suggested in paragraph 24 of the Report.

(*b*) Sub-clause (*3*)—Holding of Government of India rupee securities.—The provisions of the 1928 Bill have been followed without alteration for the present, but the point raised in paragraph 22 of the Report is reserved for consideration in Joint Committee.

(*c*) Sub-clause (*4*).—For the time being gold has been valued on the principle recommended in paragraph 25 of the Report, the question of the allocation of the profits, if any, on realization or revaluation being left for later consideration. This will properly be dealt with in a separate agreement between Government and the Reserve Bank. This point is reserved for consideration at the Committee stage.

(*d*) Sub-clause (*6*)(*c*).—Gold securities have been replaced by sterling securities as recommended in paragraph 23 of the Report.

Clause 34 reproduces clause 32 of the 1928 Bill with the modifications regarding the Rupee Redemption Fund indicated in paragraph 21 of the Report.

Clause 36 is new, replacing clauses 34 and 35 of the 1928 Bill. It embodies the recommendations of the Committee in paragraph 21 regarding the transfer of rupee coin between Government and the Bank.

Clause 37 reproduces clause 41 of the 1928 Bill. It has been transferred here for the purpose recommended in paragraph 26 of the Report.

Clauses 40 and 41 contain the new provisions regarding the purchase and sale of sterling exchange, *vide* paragraphs 19 and 20 of the Report. Clause 40 of course takes the place of clauses 38 and 39 of the 1928 Bill providing for the obligation to sell gold or gold exchange. Clause 40 of the 1928 Bill has been omitted as it would be inoperative.

Clause 42 reproduces clause 44 of the 1928 Bill without alteration, the principle of this clause having been approved in paragraph 28 of the Report. The detailed application of this principle, however, must receive careful consideration as recommended in paragraph 28 and the Committee stage will offer a convenient opportunity for this.

Clause 43 reproduces the old clause 45, *vide* paragraphs 29 and 31 of the Report. The Second Schedule giving the arrangements to be made with the Imperial Bank has also been left unaltered for the present but will be another matter for consideration in Joint Committee.

Clause 44 reproduces clause 46 of the old Bill but the Fourth Schedule (old Schedule Three) has been modified so as to provide for a maximum 6 per cent. dividend—*vide* paragraph 27 of the Report; *vide* also note on the Fourth Schedule.

Clause 50.—This represents a tentative working out of the suggestion contained in the note on clause 15 (*2*) in Appendix I to the Report. The subject presents serious difficulties which will have to be considered at a later stage.

Clause 52.—Certain modifications and additions have been made in the regulation-making powers (*vide* note on clause 13 of the 1928 Bill *ante*).

The First Schedule.—This has been framed in accordance with the recommendations in paragraph 7 of the Report. Appendix II of the Report has been amplified, in accordance with current distribution and nomenclature.

The Second Schedule.—The First Schedule of the 1928 Bill has been brought up to date in accordance with the latest information available. It may, however, be altered in the light of later information before the Bill comes up for final consideration.

The Fourth Schedule (*vide* note on clause 44) provides for a maximum dividend of six per cent. to be reached by stages diminishing by fifty per cent. successively with a minimum rise of ½ per cent. Thus, if the fixed minimum dividend is five per cent., it will be raised to 5½ per cent. if the distributable surplus rises to 5½ crores, to 5¾ per cent. if it rises to 7 crores, and so on. If the fixed minimum is 4 per cent., the stages will be 5 per cent., 5½ per cent., and so on. This follows the provisions of the Third Schedule of the 1928 Bill, except for the fact that the 1928 Schedule provided for a maximum dividend of seven per cent.

The Fifth Schedule reproduces the Fourth Schedule of the 1928 Bill with the alterations necessitated by the modifications in the body of the Bill.

STATEMENT OF OBJECTS AND REASONS.

It has been recognised, since the plan of setting up a Reserve Bank for India was first considered, that, with the transfer to a Reserve Bank of the purely central banking functions which are at present performed by the Imperial Bank of India, the latter should be freed from some of the restrictions which are at present imposed upon it. Accordingly, when the Reserve Bank of India Bill of 1927 was introduced on January 14, 1927, there was also simultaneously introduced an Imperial Bank of India Act (1920) Amendment Bill which was designed to remove some of those restrictions and to modify the control of Government over the operations of the Bank. It is considered expedient that the same practice should now be followed.

2. The more important provisions of the Imperial Bank of India Bill of 1927 have been retained in the present Bill, and are as follows:—

(*a*) to replace section 10 of the Imperial Bank of India Act by another authorising the bank to enter into an agreement with the Reserve Bank of India to conduct Government business as agent of the Reserve Bank;

(*b*) to remove the limitation imposed by section 9 on the business which the bank may transact at its London office and to give specific powers to the bank to open branches outside India, in London and elsewhere;

(*c*) to give the bank extended powers in regard to its internal business and to remove restrictions on the foreign exchange business which the bank may transact.

(*d*) At present the Controller of the Currency is an *ex-officio* member of the Central Board of the bank and the Governor General in Council nominates four other members to the Board under section 28 of the Imperial Bank of India Act. Although the Imperial Bank of India will transact Government business as the agent of the Reserve Bank, it will have no direct connection with the Government and it seems unnecessary for the Government to retain any measure of control over the operations of the bank by the appointment of the members to the Board. It is therefore proposed to remove the right of the Governor General in Council to appoint such members.

(*e*) The Governor General in Council is now entitled under Regulation 54 of the Imperial Bank of India Act to require of the Central Board of the bank any information touching the affairs of the bank and the production of any documents of the bank, and he may also require the publication of such statements of its assets and liabilities in such form and at such intervals as he thinks fit. It is proposed to remove this power from the Governor General in Council, but, in order that he may be in a position to examine the affairs of the bank in case of necessity, the provision by which he may appoint auditors under regulation 59 to examine and report on the accounts of the Bank is proposed to be maintained.

It is to be noted that this last mentioned provision may be necessary in order to make effective the recommendation in paragraph 29 of the Report of the Reserve Bank Committee, which was recently held in London, that the agreement between the Reserve Bank and the Imperial Bank should contain a statement that its continuance is to be dependent on the maintenance of a sound financial position by the Imperial Bank.

3. The Imperial Bank of India Bill of 1927 was referred to a Joint Committee identical with that which examined the Reserve Bank Bill in that year, and that committee recommended certain amendments, mostly of a minor character, designed to remove defects in the administrative machinery of the Bank. These have been incorporated in the present Bill. When the Amendment Bill was re-introduced in January 1928, notice of one or two further amendments of minor importance and of a technical character was given by Government at the instance of the Central Board of the Bank. These have also been incorporated.

4. The period which has elapsed since the Bill was originally introduced has enabled the legal advisers of the Imperial Bank to give it fuller consideration and there are certain clauses which they consider should be amended to remove ambiguities and to assist in the smooth working of the Bank after the institution of a Reserve Bank. These matters still remain for discussion with the Central Board of the Imperial Bank and in order to deal with them Government may at a later stage propose such amendments within the scope of the present Bill as they consider desirable. In the meanwhile it is considered expedient that the Legislature should have the opportunity of considering an Imperial Bank Act Amendment Bill together with the Reserve Bank Bill. Accordingly the present Bill is being introduced without further delay in its original form, subject only to the amendments referred to in paragraph 3 above.

Resolution on the Report on the Police Administration in the town of Calcutta and its suburbs for the year 1932.

GOVERNMENT OF BENGAL.

Police Department.

CALCUTTA, THE 3RD NOVEMBER 1933.

RESOLUTION—No. 5791 Pl.

Read—

The Report on the Police Administration in the town of Calcutta and its suburbs for the year 1932.

The office of the Commissioner of Police was held throughout the year by Mr. L. H. Colson, I.P.

2. **Strength.**—The sanctioned strength of the Calcutta Police at the end of 1932 was the same as at the end of the preceding year. The number of resignations during the year also equalled the figure in the previous year. There was a decrease of four in the number of vacancies at the end of the year while the average daily percentage of the sick showed a slight increase from 1·52 to 1·58.

It is gratifying to note that recruits with better educational qualifications now come forward for enlistment in the constabulary.

3. **Discipline.**—His Excellency in Council notes with pleasure the appreciable decrease in the number of punishments inflicted on members of the force judicially and departmentally as compared with the figures of the previous years.

4. **Crime Statistics.**—There was an increase in the total number of cognizable cases reported to the Police. It is, however, noteworthy that this increase related to offences other than offences under the Indian Penal Code, the number of cases under the Calcutta and Suburban Police Acts and those under the Motor Vehicles and Hackney-carriage Acts having risen by nearly 9,000, 4,500 and 2,900, respectively.

In spite of the fact that for the most part of the year 2 Inspectors and 3 Sub-Inspectors of the General Investigation staff had to be deputed to assist the Press and the Civil Disobedience Sections, the work of the Detective Department was satisfactory. It assisted the local Police in 92 cases against 96 in the previous year and made independent investigations in 161 cases against 142.

His Excellency in Council is pleased to note that the Special Detective staff of the Port Police continued to do valuable work and achieved good results from efforts chiefly directed against terrorists and their agents on the lock out for smuggled firearms.

5. **Revolutionary crime, seditious speeches and meetings.**—The year under review saw no respite from terrorist activities. Ten cases were reported and investigated in connection with terrorist conspiracies, outrages and the seizure of explosives and firearms. These cases which represent only part of the fight against terrorism and revolutionary crime, threw upon the Calcutta Police a heavy and trying burden. The efficiency and courage with which they met this demand upon their resources and personnel deserve the highest praise. All sections of the force took part in this campaign and a higher standard of efficiency in detective and preventive work combined with the arrest of many dangerous terrorist criminals has strengthened the position of Government against this deep-rooted menace.

Of the reported cases of terrorist crime already mentioned one was an attempt by a lady graduate on the life of His Excellency Sir Stanley Jackson, late Governor of Bengal, while he was delivering an address at the annual convocation in the Senate Hall, and two were murderous attempts on the life of Sir Alfred Watson, the then Editor of the *Statesman*. It is significant that in the majority of these cases the culprits were either students or clerks of the Hindu *bhadrolog* class.

There were a number of prosecutions for seditious speeches delivered at public meetings and several publications were proscribed.

6. **Public order.**—A satisfactory feature of the year's administration was the absence of any serious communal friction. The action taken under

the Emergency Powers Ordinance to combat the Civil Disobedience Movement was effective.

7. **Traffic.**—The success with which the Bengal Motor Vehicles Tax Act was administered is worthy of special notice. Trade depression was responsible for a further decrease in the receipts under the Motor Vehicles Act in respect of both the registration of vehicles and licensing of drivers. It is satisfactory that the efforts made to educate motorists in the courtesies of the road and in the observance of the laws were reflected in a decrease in the number of fatal and non-fatal accidents caused by motor vehicles. The attention paid to the instruction of candidates for professional licences in approved training schools and the rigid tests to which all licensees and applicants were subjected were also important factors which contributed to the reduction in the number of accidents.

8. **Commendation of officers.**—His Excellency in Council has been pleased to read the tributes paid by Mr. Colson to his Deputy Commissioners, Assistant Commissioners and other subordinate officers and desires to take this opportunity of placing on record his appreciation of the services rendered by all ranks of the force. Thanks are specially due to Mr. Colson for maintaining a high standard of discipline and efficiency.

Order.—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division for information.

Ordered also that a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

G. P. HOGG,

Chief Secy. to the Govt. of Bengal (offg.).

Draft notification.

In exercise of the powers conferred by sub-section (*1*) of section 7, sections 10 and 12, sub-section (*2*) of section 14 and section 22 of the Port Haj Committees Act, 1932 (XX of 1932), the Governor in Council is pleased to make the following rules, namely—

Rules.

1. These rules may be called the Calcutta Port Haj Committee Rules, 1933.

2. In these rules unless there is anything repugnant to the subject or context—

(*i*) "The Act" means the Port Haj Committees Act, 1932.
(*ii*) "Candidate" means any person who has been duly proposed and seconded for a seat on the Committee.
(*iii*) "Committee" means the Port Haj Committee of Calcutta constituted under the Act.

Part I—Rules under section 7.

1. Electoral roll for the Calcutta Corporation constituency under clause (*b*) of sub-section (*i*) of section 4 of the Act shall be prepared and maintained by the Chief Executive Officer, Calcutta Corporation, who shall also act as the returning officer of this constituency.

Electoral roll for the general constituency under clause (*c*) of the said sub-section of the Act shall be prepared and maintained by the Registrar, Political Department, who shall also act as the returning officer of this constituency.

2. Any person may be nominated as a candidate for election subject to rules made under clause (*a*) of section 10 of the Act.

3. The Local Government shall appoint for each constituency a date for the nomination of candidates and shall publish such date in the *Calcutta Gazette.*

4. On or before the date so appointed for the nomination of candidates, each candidate shall either in person or by his proposer and seconder together, between the hours of 11 o'clock in the forenoon and 3 o'clock in the afternoon deliver to the returning officer a nomination paper completed in the form annexed to these rules and subscribed by two persons as proposer and seconder whose names are registered on the electoral roll of the constituency.

5. The Local Government shall appoint a date for the scrutiny of nomination and on such date the returning officer shall give to the candidates or their representatives all reasonable facilities for examining the nomination papers of all candidates. The returning officer shall then examine the nomination papers and shall decide all objections which may be made to any nomination and prepare a list of valid nominations.

6. (*1*) If the number of duly nominated candidates is not greater than the number of vacancies, all such candidates shall be declared to be duly elected.

(*2*) If the number of duly nominated candidates is greater than the number of vacancies, a poll shall be taken and the returning officer shall, on or before the date fixed in this behalf by the Local Government, send by registered post to each elector a ballot paper, in the form annexed to these rules, together with an intimation of the date appointed by him for the counting of votes and shall enter on the counterfoil of each ballot paper the name of the elector to whom the ballot paper is sent.

An elector shall obtain the attestation of his signature, but not of his vote, by a Magistrate, exercising first class powers, or a Justice of the Peace or any head of a department under Government to whom he is personally known, or to whose satisfaction he has been identified. (*b*) count the votes given to each candidate, and declare the candidate or candidates with the largest number of valid votes to be elected.

9. Where on the counting of votes under rule 8, an equality of votes is found to exist between any candidates and the addition of one vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the returning officer and in such manner as he may determine.

10. Upon the completion of the counting of votes, the returning officer shall prepare and certify a return setting forth—

(*i*) the number of valid votes given for each candidate;

(*2*) When any choice for any constituency has been made, his election by the other constituency shall become void and the returning officer of this latter constituency shall then in the place of such candidate declare duly elected the candidate who has secured the largest number of valid votes among the candidates who has failed to secure the election and if there be no such candidate to be declared elected, the Local Government shall call the constituency to elect another person.

(*3*) If the candidate does not make the choice referred to in sub-rule (*1*) of this rule, the election of such person shall be void and the returning officer of each of those constituencies shall in the place of such candidate declare duly elected the candidate who has secured the largest number of valid votes among the candidates who has failed to secure the election and if there be no such candidate or candidates to be declared elected, the Local Government shall call upon the constituency or constituencies concerned to elect another person or persons.

No. 13044 L.R.—13th November 1933.—In exercise of the powers conferred by section 189 and sub-section (*6*) of section 190 of the Bengal Tenancy Act, 1885 (VIII of 1885), the Governor in Council is pleased to direct that the following rule be added to the rules published under notification No. 5462 L.R., dated the 26th March 1929, at pages 549-92 in Part I of the *Calcutta Gazette* of the 28th idem:—

After rule 29C of the said rules *insert* the following as rule 29D:—

29D. (*1*) A co-sharer landlord may, where his other co-sharer landlords do not agree to apply for opening a personal ledger, file on payment of a fee of Rs. 5 only in court-fee stamp a statement of the shares of himself and his co-sharers in any lands comprised in any estate or tenure or part thereof of which a record-of-rights has been finally published under Chapter X of the Bengal Tenancy Act, if the co-sharers are the same and their shares in all the lands are uniform, and may apply to the Collector that the same may be registered and that the landlords' transfer fees due to him and his co-sharers on account of transfers by occupancy raiyats be distributed according to the shares stated. The statement of shares shall be in Form 7A annexed to these rules and shall be verified in the same manner as a plaint under the Code of Civil Procedure, 1908. The application shall be accompanied by notices (in said Form 7A) and copies of the statement shall be served on the other co-sharers.

The Collector shall verify the statement of shares as far as possible from the documents produced by the applicant and if it appears to be in order and provided that, if the landlord is a proprietor of a revenue-paying estate or revenue-free property, his name is duly recorded in the land registration registers of the collectorate, the notices with copies of the statement of shares shall be served on the remaining co-sharer landlords.

The notices with the copies of the statement of shares shall be served in the same manner and on payment of the same process fees as laid down in sub-rule (*3*) of rule 29.

(*2*) (*a*) If after the service the notices mentioned in sub-rule (*1*) it appears to the Collector that there is no dispute in respect of the share of the applicant he may order that the share shall be registered in his office.

(*b*) He may also order that the share of any other co-sharer named in the statement filed by the applicant shall also be registered if such co-sharer on payment of a court-fee stamp of Re. 1 applies for such registration in response to a notice issued under sub-rule (*1*) and if it appears to the Collector that there is no dispute in respect of the share of such co-sharer, provided that, if such co-sharer is proprietor of a revenue-paying estate or a revenue-free property, his name is duly recorded in the land registration registers of the collectorate.

(*3*) The Collector may, on application under the first proviso to sub-section (*3*) of section 26C or under the proviso to sub-section (*4*) of section 26E of the Act, by a co-sharer whose share has been registered under sub-rule (*2*) and who is named in the raiyats' notices under rule 26, make payment of his portion of the landlords' transfer fee according to his share as registered, without any further notices on the other co-sharers.

The provisions of sub-rules (*6*) and (*8*) of rule 29 shall apply to cases under this rule.

(*4*) The registered statement shall be in force for a period of two years from the date of the registration of the shares of the original applicant under clause (*a*) of sub-rule 2 unless the Collector previously orders it to be cancelled. It will however be open to any co-sharer to make an application during such period for cancellation of the statement, or for deletion or correction of any entry therein. Such application shall state the reasons therefor and shall be verified as if it were a plaint under the Code of Civil Procedure, 1908. If the Collector so orders the applicant shall furnish copies of the application for service on the other co-sharers in the same manner and on payment of the same process fee as laid down in sub-rule 3 of rule 29. The Collector shall pass such orders as he thinks proper on the application.

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of schools:—

A. F. Frye. The Child and Nature.

N. B.—I. Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list:—

(1) A measuring tape and metre scale and foot-rule.

(2) A magnetic compass.

(3) Squared paper and tracing paper.

(4) Clay, dry sand, paper pulp for modelling.

(5) A globe not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude and outlines only of the land masses marked upon it.

(6) A map of the school locality on a scale of 4″ or 6″=1 mile.

(7) A map of the district in which the school is situated, 1″=1 mile.

(8) A coloured map of the province.

(9) A coloured political map of India.

(10) A physical map of India.

(11) A relief map of India.

(12) A map of the world on Mollweide's equal-area projection and a map of Asia.

(13) A practical Atlas of Modern Geography (George Gill & Sons).

It is essential that the student should be provided with atlases, or with the necessary hand-map, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II. The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school in Geography:—

(1) A thermometer.

(2) A mercury barometer.

(3) A rain-gauge.

(4) A small collection of typical rocks, in particular, those of the Province and India.

(5) A small museum of typical products.

(6) A good standard atlas.

(7) Geographical pictures.

(8) Magic lantern and slides.

III. (*1*) The attention of teachers is invited to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp prepared by Babu Kailaschandra Dutt, Head Pandit, Habiganj Government Girls' School, Sylhet and sold for Rs. 7 and Rs. 5, respectively.

(*2*) Globes of all kinds are made by George Phillip & Son, London, W. and A. K. Johnston, London, and Messrs. Ruddiman, London. Small hand-globes of German make can be obtained through the Indian School Supply Depôt for about a rupee each.

(*3*) The "Comparative" Series of large wall maps of the continents published by George Phillip & Son is good and up-to-date; as also are the geographical wall maps published by Edward Standford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District Maps, also ordinary and relief maps of the province.

Babu L. M. Basu, the Drawing Master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card-board, name on one side, and the same map without names on the reverse, published by Arman Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(*4*) The hand maps coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind.

The uncoloured half-penny maps showing river system and a few towns published by the same Company, are excellent for class use.

The autograph hand-maps, with hill shading in brown, published by Messrs. Edward Standford, London, at one penny each, are very good, and are larger than the Diagram Company's hand-maps. The 15" map of the world of Mollweide's equal-area projection is specially to be commended.

(*5*) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Horns Hachett of Paris, Messrs. Holzel of Vienna, and Messrs. Longmans, Green & Company. They cost, delivered in India, from two or three rupees each.

Map lantern slides and view slides specially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Sain of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.

Cooling.

18. If it appears to the Chief Inspector or to an Inspector specially authorised in this behalf by the Local Government that the cooling properties of the air in any factory are at times insufficient to secure workers against injury to health or against serious discomfort, and that they can be to a great extent increased by measures which will not involve an amount of expense which is unreasonable in the circumstances, he may serve on the manager of the factory an order in writing, specifying the measures which in his opinion should be adopted, and requiring them to be carried out before a specified date.

Overcrowding.

19. In order that no room in a factory shall be crowded during working hours to a dangerous extent or to an extent which may be injurious to the health of the workers, the proportion which the number of cubic feet of space in a room and the number of superficial feet of its floor area bears to the number of workers working at any time therein shall not be less than the prescribed standards.

Lighting.

20. (1) A factory shall be sufficiently lighted during all working hours.

(2) If it appears to the Inspector that any factory is not so lighted, he may serve on the manager an order in writing, specifying the measures which in his opinion should be adopted, and requiring them to be carried out before a specified date.

(3) The Local Government may make rules requiring that all factories of specified classes, which in its opinion are generally insufficiently lighted, shall be lighted in accordance with prescribed standards.

Water.

21. (1) In every factory a sufficient supply of water fit for drinking shall be provided for the workers, at suitable places, according to the prescribed standards.

(2) In every factory in which any process involving contact by the workers with injurious or obnoxious substances is carried on, a sufficient supply of water suitable for washing shall be provided for the use of workers, at suitable places and with facilities for its use, according to the prescribed standards.

Latrines and urinals.

22. In every factory sufficient latrines and urinals, according to the prescribed standards, shall be provided, for male workers and for female workers separately, of a suitable pattern and at convenient places as prescribed, and shall be kept in a reasonably clean condition during all working hours.

Doors to open outwards.

23. In every factory the doors of each room in which more than twenty persons are employed shall, except in the case of sliding doors, be constructed so as to open outwards, or, where the door is between two rooms, in the direction of the nearest exit from the building.

Power to make health and safety rules to supplement this Chapter.

33. The Local Government may make rules—

(*a*) providing for any matter which, according to any of the provisions of this Chapter, is or may be prescribed;

(*b*) requiring the managers of factories to maintain stores of first-aid appliances and providing for their custody;

(*c*) regulating the use of mechanical transport in factories, other than railways subject to the Indian Railways Act, 1890; IX of 1890.

(*b*) prescribing the standards for such rooms and the nature of the supervision to be exercised over the children therein, and

(*c*) prohibiting the admission of children under the age of six years to any part of such factories in which a manufacturing process is carried on.

hazardous operations,—

(*3*) Where the Local Government is satisfied that any operation which is part of or incidental to a manufacturing process exposes those employed upon it to a serious risk of bodily injury, poisoning or disease, it may make rules—

(*a*) specifying the operation and declaring it to be hazardous, and

(*b*) prohibiting or restricting the employment of women, adolescents or children upon the operation, and providing for the protection of all persons employed upon it, in all factories or in any class of factories in which the operation is carried on.

certificates of stability.

(*4*) The Local Government may also make rules, for any class of factories and for the whole or any part of the province,—

(*a*) requiring that work on a manufacturing process shall not be begun in any factory in which such work had not been carried on before the commencement of this Act, and

(*d*) requiring that, when any structural alterations are made in any building in a factory which are likely to reduce temporarily or permanently the stability of the building or any part of it, work shall not be carried on in the building or part of it after the alterations have been begun,

until a certificate in the prescribed form, signed by a person possessing the prescribed qualifications, has been sent to the Inspector.

CHAPTER IV.

RESTRICTIONS ON WORKING HOURS OF ADULTS.

Weekly hours.

35. An adult worker shall not work in a factory for more than fifty-four hours in any week, or, where the factory is a seasonal one, for more than sixty hours in any week:

Provided that adult workers in a non-seasonal factory engaged in work which for technical reasons must be continuous throughout the day may work for fifty-six hours in any week.

Weekly holiday.

36. (*1*) An adult worker shall not work in a factory on a Sunday unless—

(*a*) he has had or will have a holiday for a whole day on one of the three days immediately before or after that Sunday, and

(*b*) the manager of the factory has, a week before that Sunday or the substituted day, whichever is earlier,—

(*i*) delivered a notice to the Inspector of his intention to ask the worker to work on the Sunday and of the day which is to be substituted, and

(*ii*) displayed a notice to that effect in the factory:

Provided that no substitution shall be made which will result in any worker working for more than ten days consecutively without a holiday for a whole day.

(*2*) Notices given under sub-section (*1*) may be cancelled by a notice delivered to the Inspector and a notice displayed in the factory at least one day before the Sunday or the holiday to be cancelled, whichever is earlier.

(*3*) Where, in accordance with the provisions of sub-section (*1*), any worker works on a Sunday and has had a holiday on one of the three days immediately before it, that Sunday shall, for the purpose of calculating his weekly hours of work, be included in the preceding week.

Daily hours.

37. An adult worker shall not work in a factory for more than ten hours in any day:

Provided that a male adult worker in a seasonal factory may work for eleven hours in any day.

Intervals for rest.

38. The periods of work of adult workers in a factory during each day shall be fixed either—

(*a*) so that no period shall exceed six hours, and so that no worker shall work for more than six hours without having had an interval for rest of at least one hour; or

(*b*) so that no period shall exceed five hours, and so that no worker shall work for more than five hours without having had an interval for rest of at least half an hour, or for more than eight and a half hours without having had at least two such intervals.

Spreadover.

39. The periods of work of an adult worker in a factory shall be so arranged that, along with his intervals for rest under section 38, they shall not spread over more than thirteen hours in any day; and he shall not resume work during the remainder of the twenty-four hours which began when he started work that day.

Periods for work to be fixed beforehand.

40. (*1*) The periods of work of each adult worker in a factory shall be fixed beforehand, in accordance with the provisions of this section and with the provisions of sections 35, 36, 37, 38 and 39.

(*2*) Where all the adult workers in a factory are required to work during the same periods, the manager shall fix those periods for the factory generally.

(*3*) Where the adult workers in a factory do not all work within the same periods, the manager shall classify them into groups according to the nature of their work, and where any group works on a system of shifts, he shall allot each member of the group to a relay.

(*4*) For each group not working on a system of shifts, the manager shall fix the periods of work for the group.

(*5*) Where any group works on shifts which are not subject to predetermined periodical alterations, the manager shall fix the periods of work for the members of each relay of the group.

(*6*) Where any group works on shifts which are subject to predetermined periodical alterations, the manager shall draw up a scheme of shifts whereunder the periods of work of any relay of the group may be required to work and the relay which will be working at any time of the day shall be known for any day.

Notice of Periods of Work for Adults.

41. (*1*) There shall be displayed and correctly maintained in every factory, in accordance with the provisions of sub-section (*2*) of section 77, a Notice of Periods of Work for Adults showing clearly all periods of work fixed and any scheme of shifts drawn up for the factory under section 40.

(*2*) A copy of the Notice shall be sent in duplicate to the Inspector within fourteen days after the commencement of this Act, or, if the factory begins work after the commencement of this Act, within three days of the day on which it begins work.

(*3*) Any proposed change in the system of work in a factory which will necessitate a change in the Notice shall be notified to the Inspector in duplicate before the change is made, and, except with the previous sanction of the Inspector, no such change shall be made until one week has elapsed since the last change or, in the first instance, since notice was given under sub-section (*2*).

(*4*) The Local Government may make rules prescribing forms for the Notice of Periods of Work for Adults and the manner in which it shall be maintained.

Register of Adult Workers.

42. (*1*) The manager of every factory shall maintain a Register of Adult Workers showing—

(*a*) the name of each adult worker in the factory,

(*b*) the nature of his work,

(*c*) the group, if any, in which he is included,

(*d*) where his group works on shifts, the relay to which he is allotted, and

(*e*) such other particulars as may be prescribed:

Provided that, if the Inspector is of opinion that any muster roll or register maintained as part of the routine of a factory gives the particulars required under this section, he may, by order in writing, direct that such muster roll or register shall be maintained in place of and shall be treated as the Register of Adult Workers in that factory.

(*2*) The Local Government may make rules prescribing the form of the Register of Adult Workers, the manner in which it shall be maintained and the period for which it shall be preserved.

Power to make rules exempting from restrictions.

43. (*1*) The Local Government may make rules defining the persons who hold positions of supervision or management or are employed in a confidential position in a factory, and the provisions of this Chapter shall not apply to any person so defined.

(*2*) The Local Government may make rules for adult workers providing for the exemption, to such extent and subject to such conditions as may be prescribed in such rules,—

(*a*) of workers engaged on urgent repairs—from the provisions of sections 35, 36, 37, 38 and 39;

(*b*) of workers engaged in work in the nature of preparatory or complementary work which must necessarily be carried on outside the limits laid down for the general working of the factory—from the provisions of sections 35, 37, 38 and 39;

(*c*) of workers engaged in work which is necessarily so intermittent that the intervals during which they do not work while on duty ordinarily amount to more than the intervals for rest required under section 38—from the provisions of sections 35, 37, 38 and 39;

(*d*) of workers engaged in any work which for technical reasons must be carried on continuously throughout the day—from the provisions of sections 36, 37, 38 and 39;

(*e*) of workers engaged in making or supplying articles of prime necessity which must be made or supplied every day—from the provisions of section 36;

(*f*) of workers engaged in a manufacturing process which cannot be carried on except during fixed seasons—from the provisions of section 36;

(*g*) of workers engaged in a manufacturing process which cannot be carried on except at times dependent on the irregular action of natural forces—from the provisions of section 36 and section 38; and

(*h*) of workers engaged in engine-rooms or boiler-houses—from the provisions of section 36.

(*3*) Rules made under sub-section (*2*) providing for any exemption may also provide for any consequential exemption from the provisions of sections 40 and 41 which the Local Government may deem to be expedient, subject to such conditions as it may impose.

(*4*) In making rules under this section the Local Government shall prescribe the maximum limits for the daily hours and the weekly hours of work for all classes of workers, and any exemption given, other than an exemption under clause (*a*) of sub-section (*2*), shall be subject to such limits.

(*5*) Rules made under this section shall remain in force for not more than three years from the date of their publication.

Power to make orders exempting from restrictions.

44. (*1*) Where the Local Government is satisfied that, owing to the nature of the work carried on or to other circumstances, it is unreasonable to require that the periods of work of any adult workers in any factory or class of factories should be fixed beforehand, it may, by written order, relax or modify the provisions of sections 40 and 41 in respect of such workers to such extent and in such manner as it may think fit, and subject to such conditions as it may deem expedient to ensure control over periods of work.

(*2*) Subject to the control of the Local Government, the Chief Inspector of Factories may, by written order, exempt, on such conditions as he may deem expedient, any or all of the adult workers in any factory, or group or class of factories, from any or all of the provisions of sections 35, 36, 37, 38, 39, 40 and 41, on the ground that the exemption is required to enable the factory or factories to deal with an exceptional press of work.

(*3*) Any exemption given under sub-section (*2*) in respect of daily hours or weekly hours of work shall be subject to the maximum limits prescribed under sub-section (*4*) of section 43.

(*4*) An order under sub-section (*2*) shall remain in force for such period as it may specify, but in no case for more than three months from the date on which notice thereof is given to the manager of the factory.

Further restrictions on the employment of women.

45. (*1*) The provisions of this Chapter shall, in their application to women workers in factories, be supplemented by the following further restrictions, namely:—

(*a*) no exemption from the provisions of section 37 may be granted in respect of any woman; and

(*b*) a woman may work in a factory only between 6 a.m. and 7 p.m.:

Provided that the Local Government may, by notification in the local official Gazette, in respect of any class or classes of factories and for the whole year or any part of it, vary the limits laid down in clause (*b*) to any span of thirteen hours between 5 a.m. and 7-30 p.m.:

Provided further that, in respect of any seasonal factory or class of seasonal factories in a specified area, the Local Government may, by notification in the local official Gazette, impose a further restriction by defining the period or periods of the day within which women may be allowed to work, such that the period or periods so defined shall lie within the span fixed by clause (*b*) or under the above proviso and shall not be less than ten hours in the aggregate.

(*2*) The Local Government may make rules providing for the exemption from the above restrictions, to such extent and subject to such conditions as it may prescribe, of women working in fish-curing or fish-canning factories where the employment of women beyond the said hours is necessary to prevent damage to or deterioration in any raw material.

(*3*) Rules made under sub-section (*2*) shall remain in force for not more than three years from the date of their publication.

Special provision for night shift.

46. Where a worker works on a shift which extends over midnight, the ensuing day for him shall be deemed to be the period of twenty-four hours beginning when the night-shift ends, and the hours he has worked after midnight shall be counted towards the previous day.

Extra pay for overtime and for work on Sundays.

47. (*1*) Where a worker in a seasonal factory works for more than sixty hours in any week, or where a worker in a factory other than a seasonal factory works for more than ten hours in any day,

he shall be entitled in respect of the overtime worked to pay at the rate of one-and-a-half times his ordinary rate of pay.

(*2*) Where a worker in a factory other than a seasonal factory works for more than fifty-four hours in any week, he shall be entitled, in respect of the overtime worked less any overtime in respect of which he is entitled to extra pay under sub-section (*1*), to pay at the rate of one-and-a-quarter times his ordinary rate of pay.

(*3*) Where a worker in a factory works on a Sunday, or on any day substituted for a Sunday under the provisions of section 36, he shall be entitled, in respect of the time so worked, to pay at the rate of one-and-a-half times his ordinary rate of pay.

Restrictions on double employment.

48. No adult worker shall work in any factory on any day on which he has already been working in any other factory, save in such circumstances as may be prescribed by rules made in this behalf by the Local Government.

Control of overlapping shifts.

49. The Local Government may make rules providing that in any specified class or classes of factories work shall not be carried on by a system of shifts so arranged that more than one relay of workers is engaged in work of the same kind at the same time, save with the permission of the Local Government and subject to such conditions as it may impose, either generally in such rules or in the case of any particular factory.

STATEMENT OF OBJECTS AND REASONS.

The Royal Commission on Labour in India made a number of recommendations for the amendment of the Factories Act. These were published with their Report in July 1931. After examining these in detail, the Government of India drafted a Bill to replace the present Factories Act which embodied the great majority of the proposals and included some further alterations that experience had shown to be desirable. This Bill was circulated with a covering letter and a series of explanatory notes to Local Governments in June 1932 and the Governments were asked to forward the papers to associations of employers and employed and to other organizations or individuals who might be interested. In reply, a series of opinions were received discussing the Bill and the original Act in great detail, and after considering the numerous suggestions offered, the Government of India have framed the present Bill.

The substantial changes made in the existing law are discussed in the Notes on Clauses. Nearly all the more important alterations are based on the Labour Commission's recommendations. At the same time the opportunity has been taken to rearrange the law and to revise its expression where necessary. The present Act dates from 1911, but since that date large changes have been made by amending Acts and the consolidation of the law in a clearer and more logical form is in itself a desirable reform.

NOTES ON CLAUSES.

(In these Notes "Section" denotes a section of the present Act.)

Clause 2.—The definitions have been generally revised and supplemented and those defining the manufacturing process and determining when a person is employed have been simplified. The definition of "factory" has been modified so as to cover those establishments which, although they employ more than 20 persons in the day, do not employ that number simultaneously.

Clause 3.—The general acceptance of standard time has rendered a modification of section 51 (*1*) desirable.

Clause 4.—The Labour Commission recommended differential treatment for seasonal and non-seasonal factories in the matter of adult hours and in other respects. This clause is based on their recommendation.

Clause 5.—This clause reproduces the provision contained in section 2 (*3*) empowering Local Governments to bring workshops not using power and the smaller power-factories within the scope of the Act: but certain changes have been made. On the recommendation of the Labour Commission it is proposed that Local Governments should be empowered to apply the Act to workshops in full or in part; at present they have no choice between applying the whole of the Act or none in such cases. Provision has been made in sub-section (*2*) for the notification of classes of premises, where necessary; and sub-section (*3*) is designed to ensure that a notification of the Local Government does not remain in force after the conditions justifying its issue have ceased to apply.

Clause 6 reproduces in substance section 53; but it is proposed that notifications should be limited to specified factories as there is no occasion for notifications applicable to classes of factories.

Clause 7.—This is a new clause designed to enable the Local Government to exempt from the Act premises which by reason of a change in their use should no longer be treated as factories.

Clause 8.—Section 57 confers on the Government of India the powers which may be exercised by Local Governments under the Act, while section 56 enables the Local Government to exempt any factory in case of public emergency. Section 57 has never been invoked and it is proposed to omit it. On the other hand, section 56 is intended only for a serious general emergency such as might be caused by a war, and it is proposed to transfer this exceptional power to the Government of India.

Clause 9.—Cf. section 33.

Clauses 10 and 11.—Cf. sections 4 and 5.

Clause 12.—This is a new clause.

Clause 13.—Sub-clause (*1*) reproduces section 6; sub-clause (*2*) extends to certifying surgeons the principle applying to Inspectors in clause 10 (*2*) [Section 4 (*2*)].

Clause 14.—*Cf.* section 8.

Clause 15.—This combines the provisions of sections 9 (*a*) and 37 (*2*) (*e*).

Clause 16.—Sub-clauses (*1*) and (*2*) are based on section 9 (*c*) and section 37 (*2*) (*g*), while sub-clause (*3*) is based on section 10. Sub-clause (*4*) is designed to enable Local Governments to do by rules for classes of factories what Inspectors under sub-clause (*3*) can do by orders for single factories.

Clause 17, sub-clause (1).—Section 9 (*d*) at present requires that the atmosphere shall not be rendered so humid by artificial means as to be injurious to the health of the workers, and section 37 (*2*) (*g*) gives the Local Government power to prescribe standards of artificial humidification and the methods to be adopted to secure their observance. It is now established that humidity, by itself, affords no measure of the decree of danger or discomfort; the cooling power, a factor dependent on the temparature, the humidity and the movement of the air, is a much more reliable criterion. Moreover, the Labour Commission has called attention to the fact that the existing Act gives inadequate power to protect the worker from acute discomfort. It is therefore proposed to omit the prohibition of excessive humidity and, in sub-clause (*1*), to enable the Local Government to prescribe standards of cooling power, in place of standards of humidification, and to regulate the methods used for artificial humidification. Sub-clauses (*2*) and (*3*) reproduce the substance of section 12.

Clause 18.—This is based on a recommendation of the Labour Commission who give in their report the previous history of the legislative proposals for protecting workers against the effects of excessive heat.

Clause 19.—This combines the provisions of section 9 (*b*) and section 37 (*2*) (*f*) with an addition enabling the Local Government to prescribe standards of floor space.

Clause 20.—Sub-clauses (*1*) and (*2*) reproduce the substance of section 11. In sub-clause (*3*) it is proposed to enable the Local Governments to prescribe standards of lighting by rule for particular classes of factories.

Clause 21.—Sub-clause (*1*) combines sections 14 and 37 (*2*) (*i*). Sub-clause (*2*) is new and is based on a recommendation of the Labour Commission.

Clause 22.—This combines sections 13 and 37 (*2*) (*h*). The proviso to the former section has been omitted in accordance with a recommendation of the Labour Commission.

Clause 23.—*Cf.* section 15. The maximum number of person who may occupy a room in which the doors open inwards has been reduced to 20 and the saving in favour of factories erected before 1912 has been omitted.

Clause 24.—This combines sections 16 and 37 (*2*) (*ii*).

Clause 25.—*Cf.* section 18.

Clauses 26 and 27.—Inspectors have already power under section 18A, which is substantially reproduced in clause 27, to issue orders requiring action to be taken where the machinery or plant has become dangerous and prohibiting the use of dangerous machinery or plant pending repairs in cases of necessity. But an Inspector may have reason to fear that the use of certain machinery or plant involves danger without having sufficient evidence to warrant him in issuing definite orders requiring its alteration or repair. Clause 26, embodying a recommendation of the Labour Commission, has therefore been added to enable Inspectors to secure the requisite information when necessary. See also clause 34 (*4*).

Clause 28.—This is based on section 19; but it is proposed to extend to the oiling of machinery the prohibition which at present applies to the cleaning of machinery, and to extend it to work done between moving parts as well as between fixed and moving parts.

Clause 29.—Sub-clause (*2*) reproduces the substance of section 19A. In sub-clause (*1*) it is proposed to give the Local Governments general powers to exclude non-working children with a view to their protection.

Clause 30 reproduces section 20.

Clause 31.—This reproduces section 34 with a small amendment to secure that notices are given of all accidents resulting in death or serious injury, including those in which injury is caused to persons not employed in the factory.

Clause 32.—This is based on section 50. A minor modification has been made in the conclusion of the last sub-section, and provision is made for appeals in all cases in which an order in writing is issued by an Inspector.

Clause 33.—Sub-clauses (*b*), (*c*) and (*d*) are new provisions and are all based on recommendations of the Labour Commission.

Clause 34.—The Labour Commission recommended that Local Governments should be empowered in general terms to pass orders applicable to particular classes or groups of factories relating to welfare. In addressing Local Governments the Government of India suggested that such a wide extension of rule-making powers was undesirable and that it would be more in consonance with the principles underlying the Act that fresh requirements of this kind should have the approval of the Legislature. This view has been generally accepted and the Government of India have therefore included no general rule-making power relating to "welfare" in the Act. They propose [*cf.* clauses 21 (*2*), 33 (*b*) and sub-clauses (*1*) and (*2*) of this clause] to empower Local Governments to make provision only for those matters to which the Labour Commission specifically directed attention.

Sub-clause (*3*) is designed to enable Local Governments to secure the protection of the worker against special hazards arising from the use of particular processes. The present Act already contains in section 19B and the Schedule provisions designed to protect women and young persons against dangers from lead poisoning, and section 38A confers on the Government of India power to make rules for the disinfection of wool which may be infected with anthrax spores. But with the constant elaboration of factory processes the existing Act has already proved inadequate; and the steady accumulation of knowledge of the best methods for protection against dangers due to special processes render it desirable that Government should be able to make and to modify from time to time the necessary regulations.

Sub-clause (*4*) is based on a recommendation of the Labour Commission, and is designed, along with the provisions of clauses 26 and 27, to protect workers against dangers arising from the use for factory purposes of unstable buildings. It is limited to new factories and extensions.

Clause 35.—The main part of the clause embodies the recommendation of the majority of the Labour Commission for the reduction of weekly adult hours in non-seasonal factories to 54. The limit for seasonal factories is retained at 60 hours. In the proviso a special exception is made in favour of factories where the processes must go on throughout the day, such as factories providing electric power and light, waterworks, etc. This is also based on a recommendation of the majority of the Labour Commission, but it has not been coupled, as they suggested, with a provision ensuring an average of 54 hours weekly. Such a provision would introduce a serious complication, and it is common in these factories for work to be of such an intermittent character that the hours normally worked in a week are less than 54. The proviso has not been extended, as the Labour Commission suggested, to factories producing articles of prime necessity which must be supplied or made every day as special treatment is not warranted on this account.

Clause 36.—*Cf.* section 22. Sub-clause (*2*) providing for the cancellation of notices on the part of the employer is new.

Clause 37.—The majority of the Labour Commission proposed to reduce the hours for adult work in non-seasonal factories from 11 to 10. This has been embodied in the clause and it is proposed to apply a similar reduction to women workers in seasonal factories.

Clause 38.—This is based on section 21, but certain changes have been made. That section is defective in that, where two intervals of half an hour are given, a manager who closes his factory before the second interval is due infringes the law. In addition, the present law makes the request of the employees concerned necessary before the rest interval can be split up into two half hours, and places two additional limitations on the reduction of the interval to half-an-hour where the working day is 8½ hours or less, viz., the sanction of the Local Government must be obtained, and this reduction can only be permitted in the case of male workers. It is proposed to remove all these restrictions. With a short working day it is better that the extra half hour should be spent in the worker's home than in the precincts of the factory, and this applies with, if anything, more force to women than to men. Section 52 which allowed in certain circumstances unexpected interruptions of work to count as intervals has been omitted.

The Labour Commission recommended that it should also be possible to split up the intervals into periods of less than half-an-hour. But as there is virtually no demand for this refinement, and its introduction would add appreciably to administrative difficulties, it has not been included.

Clause 39.—This is based on a recommendation of the Labour Commission and is designed to prevent the hours of work being so arranged that the worker does not get a reasonably long period away from the factory on each day.

Clause 40.—This embodies the principle of section 26, but the opportunity has been taken, by inserting separate sub-sections relating to the various methods by which factory hours are arranged, to make it clear that hours need not be fixed separately for each individual worker.

Clause 41.—This is based on section 3. The period within which the notice must be sent has been reduced to 3 days; and in order to prevent the evasion of the Act, it is proposed to provide that changes should be notified to the Inspector before they are made, and that his previous sanction should be required if a change has to be made within a week of the previous change.

Clause 42.—Sub-clause (*1*) is based on section 35. But the main part of the clause has been remodelled and the first proviso to the existing section has been omitted, on the ground that it is desirable that at least a record of the workers should be maintained in all factories. Sub-clause (*2*) is based on section 37 (*2*) (*l*); the addition relating to the preservation of the register is new.

Clause 43.—Sub-clause (*1*) is based on section 29. Sub-clause (*2*) is based on sections 30 (*1*) and 30 (*3*), 32 and 32A (*a*). The main change proposed is that these exemptions should in future be made by rules under the Act and not merely by notification. In addition it is proposed that exemptions should not be granted from the weekly holiday in the case of workers engaged in intermittent work, and the definition of such work has been made more specific.

The remaining sub-clauses are new. Sub-clause (*3*) has been found to be necessary in order to enable the factory management to avail itself of other exemptions that may be given. Sub-clause (*4*) provides for the fixing of absolute limits to overtime, a matter now covered by rules under the Act. Sub-clause (*5*) embodies a recommendation of the Labour Commission and is designed to ensure that exemptions and the conditions upon which they are granted are reviewed at intervals of not less than 3 years.

Clause 44.—This provides for certain exemptions which cannot suitably be made by rules. Sub-clause (*1*) is designed to meet the case of those factories where the fixing of hours beforehand would impose an unreasonable limitation on the working of the factory: for example, there are factories where work comes in at unexpected times and has to be done with extreme expedition. Sub-clause (*2*) is based on section 30 (*2*), but it is proposed that the power to grant exemptions should be exercised by the Chief Inspector, subject to the control of the Local Government. Sub-clauses (*3*) and (*4*) are designed to secure that the limits prescribed by Local Governments for overtime apply to such exemptions and that they do not remain in force for an unreasonable period.

Clause 45.—Sub-clause (*1*) is based on section 24, but it is proposed to change from 5-30 a.m. to 6 a.m., the hour before which women may not normally be employed. The object is to secure for women a night rest of not less than 11 hours, which is the period prescribed by the International Convention relating to this subject and recommended by the Labour Commission. The latter's proposal to extend the period within which a factory may employ women to the hours between 5 a.m. and 10 p.m has been strongly criticized and is not embodied in the Bill. The first proviso is based on section 51 (*2*) and the second on a recommendation of the Labour Commission. It is applicable only to seasonal factories, and is intended to enable Local Governments to enforce the legal hours in rural factories where repeated infringements have shown the necessity for further limitation. Its application will not reduce the maximum hours for which women may work but will limit further the hours within which they may be employed. Sub-clause (*2*) is based on section 32A (*b*) but provides for exemption by rules instead of by notification. Sub-clause (*3*) has the same object as sub-clause (*5*) of clause 43.

Clause 46.—This is a new provision designed to meet the difficulties of factories working on shifts. For example, a factory worker who works up till 4 a.m. on Sunday morning and then gets 40 hours of rest, commencing work again at 8 p.m. on Monday night, has at present to be exempted from the provisions relating to the weekly holiday.

Clause 47.—Sub-clauses (*1*) and (*2*) replace section 31 and embody the Labour Commission's recommendation that work in excess of 60 hours in the week should be paid at the rate of time and a half. It is proposed to make similar provision for work done in excess of the daily limit of hours in a non-seasonal factory and, in sub-clause (*3*), to provide for similar payment for all work done by virtue of an exemption from the weekly holiday.

Clause 48.—*Cf.* section 25.

Clause 49.—This embodies a recommendation of the Labour Commission and is designed to give the Local Governments power to control the working of multiple shifts.

Clauses 50 to 53.—These embody, so far as children are concerned, the substance of sections 23 (*a*) and 7 but, in modification of a recommendation made by the Labour Commission, it is proposed to enable Local Governments to prescribe for the guidance of certifying surgeons granting certificates physical standards to be attained by children.

It is also proposed, as recommended by the Labour Commission, that adolescents should be required to produce certificates of fitness before they can be permitted to work as adults. The ages of 15 to 16 suggested by the Labour Commission have been criticised as unduly narrow and adolescence has been defined so as to include persons between the ages of 15 and 17. Adolescents may be certified as fit either for children's work or for adult work. In the former case they will be subject to all special restrictions imposed by the Act on the work of children, and in the latter case they will be subject to none of these restrictions. The Labour Commission also suggested that young persons should be prohibited from working at night, but the advantages to be gained by preventing male adolescents who are certified as fully fit for adult work from working at night do not outweigh the difficulties that would thus be created.

Clause 54.—Sub-clauses (*1*) and (*2*) are based on the recommendations of the Labour Commission. Sub-clause (*3*) is based on sections 23 (*b*) and 51 (*2*). The same modifications have been made in the case of children as in the case of women. Sub-clause (*4*) is designed to ensure that every child, without exception, enjoys a weekly rest. Sub-clause (*5*) is taken from section 25.

Clauses 55 and 56.—These extend to children the principles applied to adults in clauses 40, 41 and 42.

Clauses 57 and 58.—These embody the principles of section 8A, but it is proposed to extend it, as recommended by the Labour Commission, to persons who appear to the Inspector to be children or adolescents.

Clauses 60, 62 to 69.—These embody, with the necessary consequential additions, sections 41, 43, 44 and 44A. Section 43A, which provided for the grant of compensation to injured workers out of fines has been omitted, as adequate provision is now made by the Workmen's Compensation Act.

Clause 61.—This follows a recommendation of the Labour Commission and is designed to secure in suitable cases adequate penalties in the case of repeated offences.

Clause 70.—This is a new clause designed to ensure that whenever possible the person responsible as occupier is clearly designated.

Clause 71.—This reproduces section 42.

Clause 72.—*Cf.* section 45.

Clause 73.—*Cf.* section 46. The provision is at present limited to parts of the factory where certain work is carried on. It is proposed to extend it to all parts of the factory where children are employed.

Clause 74.—*Cf.* section 47.

Clauses 75 and 76.—*Cf.* sections 48 and 49.

Clause 77.—*Cf.* section 36 (*1*). Sub-clause (*2*) is new.

Clause 78.—*Cf.* section 38.

Clause 79.—Sub-clause (*1*) is based on various provisions throughout the Act. Sub-clauses (*2*) and (*3*) are based on sections 39 and 40, but the exception contained in section 39 (*1*) has been omitted.

Clauses 80 and 81.—These reproduce sections 54 and 58.

Clause 82.—The proviso is intended to ensure that there is no breach of continuity in respect of matters not covered by section 6 of the General Clauses Act, 1897.

(1) No Magistrate other than a Magistrate of the first class shall take cognisance of an offence under section 31, section 32 or section 33, and such Magistrate may take cognisance of such an offence only upon complaint made by a person authorised by the Committee in this behalf, and with the previous sanction of the Local Government.

(2) The Committee shall be responsible for the conduct of all prosecutions of offences under section 31, section 32 and section 33.

STATEMENT OF OBJECTS AND REASONS.

In October, 1932, the representatives of the Indian tea industry approached the Government of India with a view to securing their support to an international scheme for the restriction of exports of tea. The condition of the industry was precarious and the collapse of many concerns imminent. Government, therefore, expressed their willingness to consider, on its merits, any practical scheme that might be put forward. The Indian Tea Association, acting for the industry, produced a scheme which had the support of tea interests both in Ceylon and the Netherlands East Indies. The main features of the scheme were:—

(*i*) that the exports of tea would be restricted to a percentage of the maximum exports from each producing country in any of the three years, 1929, 1930 and 1931;

(*ii*) that the restriction scheme would remain in force for 5 years commencing from 1st April, 1933; and

(*iii*) that during this period existing areas under tea would not be extended beyond half per cent. of the present planted area.

The scheme also provided that the heads of agreement would be enforced in each of the contracting countries by the Government concerned.

2. The results of a referendum issued to all known estates have been examined and it appears that over 92 per cent. of the industry, reckoned in terms of production, have expressed themselves in favour of the scheme. The Governments of Madras, Assam and Bengal, within whose jurisdiction bulk of the tea in British India is cultivated, are prepared to restrict the issue of fresh leases for tea cultivation for the period of the agreement and have also agreed to the restriction of planting of areas already leased. Indian Associations have expressed themselves as strongly in favour of the scheme as British interests. Government have, therefore, decided to give official recognition to the scheme and to give legislative sanction to its operation. The Governments of the Netherlands East Indies and Ceylon have already passed laws to give effect to the agreement.

The International Labour Conference at its twelfth session held in 1929 adopted a Draft Convention concerning the protection against accidents of workers employed in loading or unloading ships. At its sixteenth session held in 1932 the Conference adopted a Revised Draft Convention incorporating in the original Draft Convention certain amendments proposed by Governments who had experienced difficulties of a practical nature in considering the question of ratifying the original Convention. The Revised Draft Convention is of exactly the same scope and character as the original Draft Convention adopted in 1929 and differs from it only in certain matters of technical detail.

2. After consulting the Local Governments and through them the Port Trusts and commercial bodies the Government of India came to the conclusion that the Revised Draft Convention should be ratified on behalf of India.

3. The Bill is intended to give effect in India to the Revised Draft Convention.

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 11th September, 1933:—

L. A. BILL No. 45 OF 1933.

A Bill to amend the Indian Lac Cess Act, 1930, for certain purposes.

WHEREAS it is expedient to amend the Indian Lac Cess Act, 1930, for the purposes hereinafter appearing; It is hereby enacted as follows:— XXIV of 1930.

Short title and commencement.

1. (*1*) This Act may be called the Indian Lac Cess (Amendment) Act, 1933.

(*2*) This section and section 3 shall come into force at once, and section 2 shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Amendment of section 3, Act XXIV of 1930.

2. In section 3 of the Indian Lac Cess Act, 1930 (hereinafter referred to as the said Act), XXIV of 1930.—

(*a*) for the words "four annas", the words "seven annas" shall be substituted, and

(*b*) for the words "two annas", the words "five annas" shall be substituted.

Amendment of section 4, Act XXIV of 1930.

3. In sub-section (*1*) of section 4 of the said Act, after the existing proviso the following further proviso shall be added, namely:—

"Provided further that the Governor General in Council may at any time, after considering any recommendations which the Committee may make in this behalf, nominate one or more persons to be members of the Committee in addition to the persons specified above, subject to the restriction that the number of members of the Committee who have been so nominated shall not at any time exceed five".

STATEMENT OF OBJECTS AND REASONS.

Under the Indian Lac Cess Act, 1930 (XXIV of 1930), a cess is levied at the rate of 4 annas per maund on lac and 2 annas per maund on refuse lac exported from India. The object of this Bill is to increase the rate of cess to 7 annas for lac and to 5 annas for refuse lac, in order to make funds available to the Indian Lac Cess Committee for extension of research work with the object of expanding the industrial applications of natural lac and meeting the increasing competition of synthetic products. The Indian Lac Cess Committee and the Governments of Bengal, United Provinces, Burma, Bihar and Orissa, Central Provinces, and Assam, who are primarily concerned, have been consulted and all support the proposal.

2. It is also proposed to make provision permitting of the appointment of not more than five additional members by the Governor General in Council. These members would represent such new and additional interests, *e.g.*, the lac-consuming industries in India, whose representation may from time to time be found necessary; the desirability of this measure of elasticity in the composition of the Committee is already apparent. The nomination of such additional members by the Governor General in Council will be made at any time, as may be expedient, after taking into consideration any recommendations which the Indian Lac Cess Committee may make. The proposals are supported by the Indian Lac Cess Committee.

Resolution on the Final Report on the flood and relief operations in the district of Pabna.

GOVERNMENT OF BENGAL.

Revenue Department.

Miscellaneous.

RESOLUTION—No. 13341 Misc.

CALCUTTA, THE 18TH NOVEMBER 1933.

READ—

Letter No. 1700M., dated the 2nd June 1933, from the Commissioner of the Rajshahi Division, submitting a final report on the flood and distress in the district of Pabna during the years 1931 and 1932.

2. The district of Pabna consists mainly of a low-lying tract, intersected by waterways and full of bils, within the angle formed by the junction of two of the greatest rivers in India whose high banks slope down towards the interior Through it runs the depression leading down from the Challan bil, which forms the outlet for much of the drainage of northern Bengal. It is therefore liable to frequent floods.

In 1931 even before the great flood of that year there had been considerable distress in the district. Twenty square miles in the neighbourhood of Bhangoora in the Sadar subdivision were affected by failure, in whole or part, of the *aman* paddy crop and about 7 square miles in other parts of the subdivision were affected by flood. In the Serajganj sub division the *aman* paddy crop of 1930 was abnormally low, and distress became fairly general throughout the subdivision.

The situation was rendered worse by the low prices due to the economic depression. The measures taken to relieve distress coupled with a good *aus* paddy crop would have restored the situation to normal had it not been for the flood of July 1931. In the Serajganj subdivision 52 relief centres were opened beginning from 24th April 1931 and in Sadar subdivision 9 centres from 1st July 1931 In the period from 1st January 1931 to 26th July 1931 the following allotments were made by Government :—

For agricultural loans—Rs. 2,65,000.

Advances for test relief works—Rs. 30,000.

For gratuitous relief—Rs. 25,000.

The great flood due to an abnormal rise of the Brahmaputra-Jamuna resulting from heavy rainfall began in Serajganj on 17th July 1931, and in Sadar on 20th July 1931, and reached its height in Pabna district by the 1st August 1931, in Serajganj and 4th August 1931 in Sadar. The flood remained high till the end of August. The flood extended also through the centre of the district up to the Challan bil and affected part of Rajshahi. A portion of the *aus* crop was harvested before the advent of the flood but much of it was damaged. A large portion of the *aman* crop was totally destroyed and in most places the depth of water prevented any attempt to produce a late crop. On the other hand much of the long-stemmed deep water *aman* paddy survived. The total area in the district affected by the flood is estimated at 1,340 square miles with a population of 1,068,491.

3. In the period from 27th July 1931 to 31st March 1932 Government allotted the following amounts:—

For agricultural loans—Rs. 1,85,000.

Advances for test relief works—Rs. 23,000.

For gratuitous relief—Rs. 19,900.

And in 1932-33 :—

For agricultural loans—Rs. 50,000.

Advance for test relief works—Rs. 22,500.

Among the amounts contributed by non-official bodies were the following :—

(1) His Highness the Maharaja of Tippera—Rs. 600.

(2) The "Statesman" Flood Relief Fund—Rs. 282.

(3) Vivekananda Mission—Rs. 75.

(4) Sylhet-Kachar Flood Relief Committee—Rs. 250.

(5) Bengal Flood Relief Committee, Sambalpur—Rs. 300.

(6) Mahisadal Wards Estate—50.

The total amount spent by the district board on test relief works was Rs. 94,749-10-6 including the sum of

Rs. 75,500 advanced by Government. Sixteen important unmetalled roads were repaired and a canal excavated at Salap. The maximum number of persons attending test relief works was about 1,475 at the end of February 1932. The works were finally closed at the end of August 1932. The test relief works continued up to 24th September 1932 when the number of persons attending had fallen to 37. Gratuitous relief was distributed through 130 centres which were in charge of selected distributors, most of whom were presidents of union boards. The work was supervised by six circle officers and a Sub-Deputy Collector under the general supervision of the Subdivisional Officer of Serajganj and a Deputy Collector at Sadar. Two relief committees of officials and non-officials were constituted and several private relief societies operated in the district. Other measures for the relief of distress consisted of providing work in the form of paddy husking and jute spinning. A small quantity of seed was also distributed. Fortunately there was no outbreak of epidemic disease among human beings or cattle. There was no rise in the prices of food. There was a shortage of fodder in some areas during the floods and many of the cattle were fed for a time on water-hyacinth.

The distress caused by natural calamities was rendered worse by the general economic depression and the resultant general want of cash due to low prices. In spite of this, however, the anticipations of famine and of wholesale mortality from starvation which were freely circulated were not fulfilled.

4. When the Hon'ble Member in charge of the Revenue Department and the Member of the Board of Revenue visited the district at the beginning of September 1931, there was reason to apprehend that the situation might become very serious before the next harvest, particularly as delay in starting relief works was unavoidable in areas which are normally under water throughout the rains. However the measures taken proved adequate. The situation had improved by the end of the financial year, and although test works were continued up to the end of August the numbers attending them fell after February. So great was the improvement that in 1932-33 a sum of Rs. 1,71,052 was recovered on account of agricultural loans from this district.

5. The Governor in Council is satisfied that the measures taken for relief of distress were adequate and successful. He desires to record his appreciation of the good work done by Rai S. C. Sinha Bahadur and Mr. S. K. Banarji, I.C.S., the successive Collectors of the district, and by Mr. A. C. Hartley, I.C.S., Subdivisional Officer, Serajganj, the Chairman of the district board, the District Engineer, and other official and non-official gentlemen and of the ability and energy with which they organized relief measures.

Order—Ordered that this resolution be published in the *Calcutta Gazette*.

(*c*) From the first day of May until the 30th day of June, and from the 1st day of October to the 15th day of November, all sailing vessels in Port classified as sea-going shall have their royal and top-gallant yards on deck, and mast-ropes rove in readiness to send the top-gallant mast down at short notice if required. Such vessels entering the Port between the above dates, having top-gallant masts and yards aloft, may be placed in moorings but their top-gallant yards shall be sent down within 24 hours after they are moored.

31. **Storm signals.**—On the occurrence of signs of an approaching cyclone day signals No. X (Great Danger), consisting of two cones, apex to apex, and below them a vertical drum, will be hoisted during day light from the flagstaff on the roof of the Commissioner's office, Koilaghat, another similar signal from the flagstaff on the clock tower at the entrance to the Kidderpore Docks, and another on the flagstaff on the Assistant Harbour Master's House at Budge Budge. During the night, under similar circumstances, two red lights with a white light between them, all in a vertical line, will be exhibited from the same flagstaffs. When these signals are displayed, masters and persons in charge of all vessels whatever shall immediately take every precaution in their power to make their vessels snug and secure, by having awnings furled, and the lower and top sail-yard counter-braced or pointed to the wind, as seems best. Heavy hawsers shall be bent to both bower anchors ready for use.

36. **Measures during a fire.**—When a fire has broken out in any vessel the officers in charge of all vessels in neighbouring moorings or anchorages, shall furl their awnings, get their force-pumps ready for use and prepare for shipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out.

37. **Careless discharge of steam prohibited.**—All vessels in Port shall adopt sufficient precautions and guards to prevent injury to persons or goods through the discharge of steam from any part of the vessel.

46. **Power to revoke license.**—It shall also be lawful for the Commissioners, by a writing under the hand of their Chairman in the Form B in the second schedule hereto, to revoke such license, and from and after the publication of such revocation, which shall be effected by posting a copy thereof upon some conspicuous part of such vessel, the provisions of rule 45 (*a*) shall apply to such vessels as if no such license had ever been granted.

47. **Vessels lying without crew.**—Whenever it shall appear to the Commissioners that any creek, river, or dock is so situated that vessels without any crew therein may remain afloat in such creek, river or dock, without danger to any vessels in any part of the Port, it shall be lawful for the Commissioners to grant by the hand of the Chairman in the Form C in the second schedule hereto a license exempting any vessel from the provisions of rule 45 (*a*) and from time to time if they think fit to revoke or amend such license: Provided always that every such

(*d*) the registered number branded on her by the Commissioners' Boat Surveyor.

59. **Boats to be in charge of a licensed manjhi.**—No boat shall be allowed to ply within the limits of the Port unless it is in charge of a boatman or manjhi licensed and registered by the Commissioners. The boatman or manjhi's license shall be issued at the time when the boat is being licensed.

Any manjhi newly placed in charge of a boat shall himself apply to the Commissioners' Boat Surveyor for a license and shall produce at the same time the license of the boat of which he is newly placed in charge.

60. **Duration of license.**—Every license granted under these rules shall continue in force for one year from the date on which it is granted unless it is duly revoked under the provisions of these rules.

61. **License not transferable.**—No license granted under these rules is transferable.

62. **Conditions of license.**—No boat shall be licensed until the Commissioners' Boat Surveyor has surveyed it and has granted a certificate stating that the boat is in good order and suitable for the purpose for which it is intended, and including the following particulars:—

(*a*) the tonnage of the boat as given in the certificate of registry,

(*b*) the freeboard of the boat when fully loaded as given in the certificate of registry,

(*b*) A special license for the carriage of carbide of calcium shall only be issued to cargo boats falling under class 1 of rule 68 of Part III having no copper or brass in their construction, and carrying a tarpaulin which will, in the opinion of the Commissioners' Boat Surveyor, suffice to cover the hold and protect its contents from moisture.

(*c*) Applicants for a special license for the conveyance of carbide of calcium, which shall be renewed at intervals of not more than six months, shall certify in their applications that the conditions of clause (*b*) of this rule have been fulfilled.

(*d*) Any boat arriving in the port without a license or with a license which has expired, and desiring to discharge cargo, shall at once apply for an unloading permit at the nearest Inland Vessels Wharves Toll Office, deposit with the cashier in charge the license fee for one year and thereafter produce the boat for survey at the licensing buoy within one week of the date of entering the Port.

If the boat is not produced for survey within the time specified she will become liable to a further charge equal to the license fee for one year.

(*e*) Extension licenses may be granted for periods not exceeding three months at one-sixth of the annual license rate for each month's extension.

No extension license will be granted until the boat has been inspected and passed as fulfilling the conditions of rule 62 above.

Measurement of boats.

68. **Rules for measurement of cargo boats.**—*Length.*—The length shall be measured in feet from the inside of the stem post to the inside of the stern post.

Breadth.—The breadth shall be measured in feet from side to side, inside the ceiling plank, under the deck beam amidships. Where no ceiling plank is fitted the measurement shall be taken to the inside of the frame.

Depth.—The depth shall be measured in feet from the underside of the deck beam amidships to the upperside of the floor ceiling plank. Where no ceiling plank is fitted, the measurement shall be taken to the upper side of the keelson. The tonnage of cargo boats up to and including 50 tons shall be calculated from the formula.

Length × Breadth × Depth × K = Tonnage.

Where L = length in feet as defined above,

B = breadth in feet as defined above,

D = depth in feet as defined above,

and K = Constant which shall be as follows:—

Class I (*a*) For flush-decked, square built and open cargo boats and flats, K = ·009.

(*b*) For bazaar-boats, where the brake forward and aft does not exceed 9 inches K = ·008.

(*c*) For bazaar-boats, where the brake forward and aft exceeds 9 inches K = ·007.

Class II (*a*) For open country boats known as jolly boats or powcoes K = ·009.

(*b*) For open country boats known as hollahs K = ·0083.

(*c*) For bhurs and pansways K = ·008.

(*d*) For open country boats such as dinghees and bowleahs K = ·0064.

(*e*) For open country boats known as chotes K = ·0063.

Boats or flats of class I exceeding 50 tons shall be measured under the Merchant Shipping Act and any boat in class I may, if the owners show that the measurements made according to the above formula are inaccurate or oppressive, be measured under the Merchant Shipping Act.

Every boat or flat exceeding 10 tons shall have on her side a conspicuous mark to indicate the freeboard or greatest depth to which she may be immersed when loaded.

The freeboard shall be obtained from the following table:—

Freeboard Table.

D = 5′6″, 6′0″, 6′6″, 7′0″, 7′6″, 8′0″, 8′6″, 9′0″, 9′6″, 10′0″, 10′6″, 11′0″, 11′6″, 12′0″, 12′6″, 13′0″, 13′6″, 14′0″.

L = 55′, 60′, 65′, 70′, 75′ 80′, 85′, 90′, 95′, 100′, 105′, 110′, 115′, 120′, 125′, 130′, 135′, 140′.

Where D=Depth.
L=Length.
F=Freeboard for decked boats or flats of iron or steel.
F2=Freeboard for open boats or flats or iron or steel.
C=Correction for every 10 feet in length.

For all classes of wooden boats and flats, both square built and country built, also composite boats and flats, the freeboard shall be calculated at the rate of 3 inches for every foot depth of hold up to 10 feet.

Whenever a boat is licensed to carry boat passengers and cargo, she shall be measured and marked with a load line in the same way as though she were intended solely for the carriage of cargo.

69. To ascertain the number of the passengers that a passenger boat may carry, divide the superficial area in square feet of the floor space available for passengers by 6 and the result is the number of passengers that the boat may be licensed to carry.

Rules for the measurement of passenger boats.—In the case of boats belonging to private firms or companies and used exclusively for the conveyance of their own employees to and from their works, the divisor shall be 4 instead of 6.

Whenever a boat is licensed to carry both passengers and cargo the total load shall be such that the load line marked on the boat is not submerged.

To ascertain the number of persons in addition to the crew that may be carried, two children below the age of 12 years shall be counted as one person and every two maunds weight of luggage shall be counted as equivalent to one person.
